- Taylor & Francis

Military Psychology is a peer-  
reviewed academic journal  
published by the American  
Psychological Association on  
behalf of APA Division 19. The  
journal covers psychological  
research or practice in a military  
context, including clinical and  
health psychology, training and  
human factors, manpower and  
personnel, social and  
organizational systems, and  
testing and measurement.

Military Medicine | Oxford  
Academic - Journals

Military psychology is the  
research, design, and  
application of psychological  
theories and empirical data  
towards understanding,  
predicting, and countering  
behaviours in friendly and  
enemy forces, or in civilian  
populations. There is  
particular emphasis on  
behaviours that may be  
undesirable, threatening, or  
potentially dangerous to the  
conduct of military  
operations.

The discipline of military  
psychology involves the  
systematic and scientific  
study of the selection,  
training, adaptation, and  
performance of soldiers.  
Military psychology, by  
necessity, is a heterogeneous  
field of inquiry. On the one  
hand, it draws on all  
subdisciplines of psychology  
to understand the variables  
that affect soldier  
performance while on the  
other hand, lessons learned  
from ...

The Need for Psychology. The military is our nation ' s largest employer. As of fiscal year (FY) 2009, there were over 2.2 million military members (including members on active duty and those in the Reserves and National Guard: Department of Defense, 2010a). This personnel count is modest relative to the troop levels garnered before conscription (i.e., the draft) ended in 1973, but it is ...

About Military Psychology.

The role of the military psychologist is to assist members of the military and their families and loved ones. Health professionals and military leaders understand the importance of mental health among enlisted personnel, as their time in the service can take a great psychological toll. The field expanded significantly during World War II and is expected to continue ...

What is Military Psychology? | New England College Online

The domain of military psychology is the conduct of research or practice of psychological principles within a military environment. The journal publishes behavioral science research articles having military applications in the areas of clinical and health psychology, training and human factors, manpower and personnel, social and organizational systems, and testing and measurement.
