Explore the varied features of the European continent while reinforcing basic map reading skills. Sixteen student pages and accompanying blackline and full-color maps coordinate to provide a relational study of the elevation, vegetation, products, population, and peoples of Europe. Student pages challenge students to combine maps and additional resources in order to answer questions and make judgments. Question topics follow the Five Themes of Geography as outlined by the National Geographic Society: finding absolute and relative locations on a map, relating physical and human characteristics to an area, understanding human relationships to the environment, tracing movement of peoples and goods throughout an area, and organizing countries and continents into regions for detailed study. (1871—1929) The Age of Progress covers the latter decades of the 19th century and the early years of the 20th. Building on the advances of the industrial revolution, this "post-revolutionary" period is similarly defined by remarkable technological and industrial innovation. An era of firsts—steel bridges, sewing machines, bicycles, typewriters, radios, automobiles, airplanes, electric light bulbs, the telephone, photography, and the first motion picture—the Age of Progress gave birth to unprecedented modes of productivity, transportation, and communication. Thomas Alva Edison, Wilbur and Orville Wright, and Charles Darwin are among the historic figures discussed. Special emphasis is given to the sociology of industrial advancement—most notably the development of leisure. Challenging map exercises and provocative review questions encourage meaningful reflection and historical analysis. Tests and answer keys included.
