Osho sees Zen not as a historical spiritual tradition, but as the future of a humanity that has matured to the point that people no longer need religions controlled by “priesthoods” and based on fearful superstitions that cripple people’s innate intelligence and divide them from one another. This book offers a deeper understanding of the underlying differences between Eastern and Western approaches to religion and the

nature of consciousness. It's a beautiful introduction to a world where each individual has the capacity for an instant and profound understanding of existence, and a rebirth of the trust in life that each of us are born with. Dang Dang Doko Dang represents the sound of the drum beaten by a Zen master in an existential lesson for a disciple. As well as symbolizing the poetic quality of Zen, the title represents the special flavor of this collection of Osho’s commentaries on well-known Zen stories. This volume is part of the OSHO Classics series and also includes

Osho ' s responses to questions about the meditation technique of Zazen.

Happiness, stress,
ecstasy or
depression, it's all
a mind game. As long
as our mind is under
our control,
everything else is.
That's what The Mind
Game is all about. It
is not an average
self-help book that
preaches life-
enhancing
methodologies based
on complex science or
long philosophical

verses. The book's
genius lies in its
simplicity. It offers
quick, actionable and
instantly applicable
tips that will help
readers lead better
lives - instantly.
The book begins with
five ultra-practical
steps that will help
readers master their
emotions. Emotions
are strange. They
make us human. They
make our lives real.
They make us
different from
robots. Yet, many

disasters in our lives result from uncontrolled emotions or because of emotional wounds from painful experiences. By helping readers master their emotions, this book aims at making them strong, enabling them to make rational decisions. Readers will be trained on how to feel, face, control and protect their emotions. They will also be enlightened on the importance of EQ and how they can upgrade it. The book then acquaints readers with techniques of analyzing people through effective questioning in routine conversations and understanding personality traits. By applying these methods, readers can develop fruitful relationships at work and home. The third section of the book deals with living better lives with lesser resources. Using famous examples of Steve Jobs and Mark Zuckerberg, readers are made to understand the value of simple living and high thinking. It will also help readers make the best first impressions and use non-verbal communication to their benefit. Next, readers are led into understanding the secret of happiness. It first explains how readers can attain

divine happiness, how to tackle stress and depression and how to become happy in a jiffy. The book devotes an entire section to anger. To know more grab your copy today!

After a short time your subconscious mind will begin to believe the information that you have been feeding it and will finally accept it as "truth." Once your subconscious mind (After using our S/A Golf Hypnotism system) believes you are a great golfer who consistently pars or better on every hole, a golfer who consistently makes his shots, hits the fairway, hits the greens and takes only two putts or less to get the ball in the hole, your conscious mind will begin to believe it and you

will find it extremely easy to make shots you never thought you could, hit the ball long, high, and straight down the middle of the fairway, cut 5-10-15 strokes off your handicap, and take your game to the next level.
