Once a game we're off to the movies for a marvelous time! A supervillain by the name of Thanatic wreaks havoc and unleashes the dodgy superheroes who do what they do best - destroy the nearest city! Thanatic is trying to get all six Insanity Crystals so he can snap his fingers and get half-and-half for his coffee. Can Horny Starkers, Spruce Gamma, Muscular, Steve-the-Rogerer, Pietro Parkour, Doctor Deranged, Challa'Khan, She Who Exchanged Spittle with a Rhino, and the Garbage of the Galaxy stop him? (And does it even matter since anyone who dies in a comic book is routinely brought back to life?) (And how is Thanatic helping anything if he simultaneously destroys half of all living things in including half of their food source? Everyone will be just as badly off!)

Osho sees Zen not as a historical spiritual tradition, but as the future of a humanity that has matured to the point that people no longer need religions controlled by “priesthoods” and based on fearful superstitions that cripple people’s innate intelligence and divide them from one another. This book offers a deeper understanding of the underlying differences between Eastern and Western approaches to religion and the nature of consciousness. It's a beautiful introduction to a world where each individual has the capacity for an instant and profound understanding of existence, and a rebirth of the trust in life that each of us are born with. Dang Dang Doko Dang represents the sound of the drum beaten by a Zen master in an existential lesson for a disciple. As well as symbolizing the poetic quality of Zen, the title represents the special flavor of this collection of Osho’s commentaries on well-known Zen stories. This volume is part of the OSHO Classics series and also includes Osho’s responses to questions about the meditation technique of Zazen.

The Boy in the Window
Happiness, stress, ecstasy or depression, it’s all a mind game. As long as our mind is under our control, everything else is. That’s what The Mind Game is all about. It

is not an average self-help book that preaches life-enhancing methodologies based on complex science or long philosophical verses. The book’s genius lies in its simplicity. It offers quick, actionable and instantly applicable tips that will help readers lead better lives - instantly. The book begins with five ultra-practical steps that will help readers master their emotions. Emotions are strange. They make us human. They make our lives real. They make us different from robots. Yet, many disasters in our lives result from uncontrolled emotions or because of emotional wounds from painful experiences. By helping readers master their emotions, this book aims at making them strong, enabling them to make rational decisions. Readers will be trained on how to feel, face, control and protect their emotions. They will also be enlightened on the importance of EQ and how they can upgrade it. The book then acquaints readers with techniques of analyzing people through effective questioning in routine conversations and understanding personality traits. By applying these methods, readers can develop fruitful relationships at work and home. The third section of the book deals with living better lives with lesser resources. Using famous examples of Steve Jobs and Mark Zuckerberg, readers are made to understand the value of simple living and high thinking. It will also help readers make the best first impressions and use non-verbal

communication to their benefit. Next, readers are led into understanding the secret of happiness. It first explains how readers can attain divine happiness, how to tackle stress and depression and how to become happy in a jiffy. The book devotes an entire section to anger. Brain Teaser Princeton Review

Introducing us to the most famous poems of the Lebanese poet Kahlil Gibran, Osho takes the reader into a mystical world, addressing essential issues in everybody ' s life. The famous verse that gives the title to this book is about " love " —but not the ordinary love we know from novels and movies. Speak to us of Love gives a taste of a contemporary mystic at work, trying to disrupt our dreams, illusions, and the state of unconsciousness that prevents us from enjoying life to the fullest. This is about and for the millions of people in the world who have killed their love with their own hands, and who are now miserable. They never wanted to kill it, there was no intention to kill their love, but in their unconsciousness they started possessing. Husbands possess their wives, wives possess their husbands, and parents

possess their children. Teachers are trying in every possible way to possess their students. Politicians are trying to possess countries. Religions are trying to possess millions of people and control every aspect their lives. This book shows that life can only thrive in freedom. Love never allows anyone to possess it, because love is our very soul. For Osho, the basis of all our neuroses or psychoses is simple: our souls are not nourished. Love, the basic nourishment, is missing. Osho comprehensively trounces the so-called religious and philosophical approaches to life. All that is of worth is to be found, not in the extraordinary, but in the ordinary; not in fantastical ideas of the " other world " beyond death, but in this very world that we find ourselves in here and now. In short, this book shows that making a simple yet utterly basic shift in our lives will awaken the silence in our beings and bring joy into our every moment.
