Redstone is one of the more advanced elements in Minecraft. It

can be obtained either by mining a block of Redstone Ore or

from mob/dungeon loot. It can be found across certain biomes

in lower levels of the terrain. You are more likely to see

Redstone Ore in caverns in cube shaped veins. To mine the ore,

you will have to craft at least an iron pickaxe to be able to get

Redstone Dust from the ore block.

YouTube. But Minecraft and YouTube are a start at this level. I

hope we never get a Redstone guide book.
