Provides advice for librarians who are interested in offering videogame tournaments in the library, with information on such topics as the basics of gaming culture, software and hardware, and planning and marketing a gaming event.

Minecraft: Guide to Farming Brady
NEW YORK TIMES BESTSELLER •

This official Minecraft novel is an action-packed thriller! When a new virtual-reality version of the game brings her dreams—and doubts—to life, one player must face her fears. Bianca has never been good at following the plan. She 's more of an act-now, deal-with-the-consequences-later kind of person. But consequences can 't be put off forever, as Bianca learns when she and her best friend, Lonnie, are in a terrible car crash. Waking up in the

hospital, almost paralyzed by her injuries, Bianca is faced with questions she 's not equipped to answer. She chooses instead to try a new virtual-reality version of Minecraft that responds to her every wish, giving her control over a world at the very moment she thought she 'd lost it. As she explores this new realm, she encounters a mute, glitching avatar she believes to be Lonnie. Bianca teams up with Esme and Anton, two kids who are also playing on the hospital server, to save her friend. But the road to recovery isn 't without its own dangers. The kids are swarmed by mobs seemingly generated by their fears and insecurities, and now Bianca must deal with the uncertainties that have been plaguing her: Is Lonnie really in the game? And can Bianca help him return to reality? The 'Reader's Digest' Great Encyclopaedic Dictionary Penguin

A practical guide to the math behind options and how that knowledge can improve your trading performance No book on options can guarantee success, but if a trader understands and utilizes option math effectively, good things are going to happen. The idea behind Options Math for Traders + Website is to help retail option traders understand some of the basic tenants and enduring relationships of

options, and option math, that professional and institutional traders rely on every day. This book skillfully highlights those strategies that are inherently superior from an option math point of view and explains what drives that superiority while also examining why some strategies are inherently inferior. The material is explained without complex equations or technical jargon. The goal is to give you a solid conceptual foundation of options behavior so you can make more informed decisions when choosing an option strategy for your market outlook. Topics covered include the volatility premium, because over time, options will cost more than they are ultimately worth; skew, wherein far out of the money put options may seem cheap from an absolute term, but are very expensive in relative terms; and the acceleration in option price erosion. The book also has a companion Website, which includes links to those sites that can scan for the best strategies discussed in the book. Explains, in a non-technical manner, the mathematical properties of options so that traders can better select the right options strategy for their market outlook. Companion Website contains timely tools that allow you to continue to learn in a hands-on fashion long after closing the book. Written by top options expert Scott Nations Most independent traders have an imperfect understanding of the math behind options pricing. With *Options Math for Traders + Website* as your guide, you'll gain valuable lessons in this area and discover how this information can improve your trading performance.

Hell on Earth Simon and Schuster

Seventeen-year-old Jacob Todd is about to discover himself. Jacob's plan is to go to Amsterdam to honor his grandfather who died during World War II. He expects to go, set flowers on his grandfather's tombstone, and explore the city. But nothing goes as planned. Jacob isn't prepared for love&150or to face questions about his sexuality. Most of all, he isn't prepared to hear what Geertrui, the woman who nursed his grandfather during the war, has to say about their relationship. Geertrui was always known as Jacob's grandfather's kind and generous nurse. But it seems that in the midst of terrible danger, Geertrui and Jacob's grandfather's time together blossomed into something more than a girl caring for a wounded soldier. And like Jacob, Geertrui was not prepared. Geertrui and Jacob live worlds apart, but their voices blend together to tell one story&150a story that transcends time and place and war. By turns moving, vulnerable, and thrilling, this extraordinary novel takes the reader on a memorable voyage of discovery.

Discover the incredible story behind the creation and legacy of one of Star Wars' most beloved characters with *Star Wars Icons: Han Solo. Smuggler. Rogue. Hero of the Rebellion. Scruffy-looking nerf herder.* Han Solo has been called all these things and more since making his debut in the original Star Wars film back in 1977. Four decades later, the irrepressible Solo continues to be one of the most iconic and enduring elements of the saga. *Star Wars Icons: Han Solo* covers the character's entire journey, from his genesis in George Lucas's first drafts of Star Wars to Harrison Ford's iconic performances in the original three films and *The Force Awakens*, and the character's rebirth in *Solo: A Star Wars Story*. The book also takes an in-depth look at Solo's role in the Star Wars expanded universe, through novels, comics, video games, and more, and the indelible impression the character has made on pop culture. Illustrated with a treasure trove of rare and previously unseen imagery, including candid on-set photography and stunning concept art, this deluxe volume also features exclusive new interviews with Harrison Ford, Alden Ehrenreich, Mark Hamill, Billy Dee Williams, Peter Mayhew, Ron Howard, J. J. Abrams, Lawrence Kasdan, Jonathan Kasdan, and many more key creatives. Comprehensive and revelatory, this is the definitive book for Han Solo fans across the galaxy.

Aaron Marks' Complete Guide to Game Audio MIT Press

The incredible tale of a little game that shook the international gaming world--now with new material including a behind-the-scenes look at the sale to Microsoft. For this second edition, the story has been enriched with more Minecraft than ever--a new section describes Minecraft's sale to Microsoft, Notch's less than heartwarming last day in the office, and Mojang's final days of independence. His whole life, all Markus Persson wanted to do

was create his own games. Create his own games and get rich. Then in 2009 a strange little project of his quickly grew into a worldwide phenomenon and, in just a few short years, turned its maker into an international icon. Minecraft: The Unlikely Tale of Markus "Notch" Persson and the Game that Changed Everything is a Cinderella story for the Internet age—improbable success, fast money, and the power of digital technology to shake up a rock-solid industry. It's a story about being lost and finding your way, of breaking the rules and swimming against the current. It's about how the indie gaming scene rattled the foundations of corporate empires. But, above all, this is the story of how a creative genius chased down a crazy dream: the evolution of a shy amateur programmer into a video game god.

Go beyond the classic game Doom in this second book in a terrifying space epic... They were creatures seemingly spawned straight from the pits of Hell—demons, zombies, fire-breathing imps—all too horrifically close to the stuff of nightmare to be real. But they were. And on the inhospitable moons of Mars, Corporal Flynn "Fly" Taggart, Earth's last line of defense against a seemingly inexhaustible supply of alien warriors, beat them back almost single-handedly. But Taggart discovers that the war had barely begun...for while he was fighting them on Mars, the hellish creatures had established a beachhead on Earth itself. Now, with the aid of a fourteen-year-old female computer genius, an unrepentantly Mormon sniper, and the best soldier in this woman's army, Fly Taggart must defeat the invaders—and their treacherous human allies—yet

Minecraft: Guide to Ocean Survival Simon and Schuster

"Challenging traditional historiographical approaches, this book offers a new history of Italian Jews in the Early Modern age. The fortunes of the Jewish communities of Italy in their various aspects-demographic, social, economic, cultural, and religious-can only be understood if these communities are integrated into the picture of a broader European, or better still, global, system of Jewish communities and

populations; and, secondly, that this history should be analyzed from within the dense web of relationships with the non-Jewish surroundings that enveloped the Italian communities. The book presents new approaches on such essential issues as ghettoization, antisemitism, the Inquisition, the history of conversion and Jewish-Christian relations. It sheds light on the autonomous culture of the Jews in Italy, focusing on case studies of intellectual and cultural life using a micro-historical perspective. First published in Italy in 2014 by one of the leading scholars on Italian Jewish history. This book will appeal to students and scholars alike studying and researching Jewish History, Early Modern Italy, Early Modern Jewish and Italian culture, and Early Modern society"--

ATLAS OBSCURA is for the explorer.

Simplified Piano Solos Turtleback Books

It's time to get off the beaten path. Inspiring equal parts wonder and wanderlust, *Atlas Obscura* celebrates over 700 of the strangest and most curious places in the world. Talk about a bucket list: here are natural wonders—the dazzling glowworm caves in New Zealand, or a baobab tree in South Africa that's so large it has a pub inside where 15 people can drink comfortably. Architectural marvels, including the M.C. Escher-like stepwells in India. Mind-boggling events, like the Baby Jumping Festival in Spain, where men dressed as devils literally vault over rows of squirming infants. Not to mention the Great Stalacpipe Organ in Virginia, Turkmenistan's 40-year hole of fire called the Gates of Hell, a graveyard for decommissioned ships on the coast of Bangladesh, eccentric bone museums in Italy, or a weather-forecasting invention that was powered by leeches, still on display in Devon, England. Created by Joshua Foer, Dylan Thuras and Ella Morton, *ATLAS OBSCURA* revels in the weird, the unexpected, the overlooked, the hidden and the mysterious. Every page expands our sense of how strange and marvelous the world really is. And with its compelling descriptions, hundreds of photographs, surprising charts, maps for every region of the world, it is a book to enter anywhere, and will be as appealing to the armchair traveler as the die-hard adventurer. Anyone can be a tourist.
