The Usborne Children's Encyclopedia

Usborne Books

This limited, luxury, collector's edition of Britannica's brand new encyclopedia for kids features a slipcase, gold page-edges, two ribbon markers, and a numbered (1 of 500) book plate signed by Christopher Lloyd and J.E. Luebering. Featuring up-to-the-minute information

from Britannica, one of the world's most trusted sources of knowledge, this new encyclopedia brings home the joy of learning, and features over a thousand illustrations, photographs and maps. Page by page, you'll discover the story of the Universe, Earth, Matter, Life, Humans, Ancient & Medieval Times, Modern Times, and the dynamic worlds of Today & Tomorrow. In keeping with Britannica's reputation for expert involvement, each spread includes a credit to the expert consultant involved with its creation, and special features highlight some of the most intriguing

unsolved puzzles in science, archaeology, history, and engineering.

Perhaps today's young readers will discover the answers to these mysteries! This gorgeous volume is a modern classic, and will inspire curiosity and delight in every reader.

Kelly Publishing Presents information about the sciences, including such newly prominent fields as genetic engineering and nanotechnology, suggests activities and experiments, and offers definitions and questions.

American Classic

Cars The Usborne

Children's

Encyclopedia Packed with facts, this miniature

encyclopaedia is designed to be both fascinating and fun to use and covers a vast scope of information, from the Earth, its plants and animals, to its people and discoveries.

Childrens Encyclopedia

Charmingly

illustrated by Sophia

Touliatou, this

picture book takes readers on a colourful tour through the

world of numbers, from one full moon to a hundred twinkling stars. There are number patterns, picture puzzles and lots of extra things to spot along the way.

Things to count are grouped together so that children can begin counting, adding and multiplying in concrete terms before moving onto abstract calculations.

Now That's a Hat! Pop-Ups

A hilarious story about finding the right hat, with laugh-out-loud rhyming text and vibrant

illustrations from Heath McKenzie.

Filled with hats, hats and more hats, (there's

sparkly hats, noisy hats, royal hats, taco hats . . . even potty hats) and themes of animals, humor, clothing, and being yourself. Inventions Amber Books

Blast off and explore our solar system with this astronomical pop-up book. Walk on the Moon, stop off at the

International Space Station, see the surface of Mars and discover the planets in a journey through our solar system. With five cosmic pop-ups, you will find your inner astronaut as you go on your first

space adventure.
Ingeniously
constructed and
stylishly illustrated
pop-ups on every
double-page
spread.

Feed the Animals
Turtleback
This beautifully
illustrated book will
introduce children to
the joys of nature,
and show them what
wonderful secrets are
revealed if you just
look a little closer. By
holding a light
behind each page,
children can see the
creatures who make a
tree their home, from
the worms who live
among the roots to
the birds who nest
high up in the
branches. The clever
'see-through' reading
technique creates an
experience of
interactive learning,

showing both the
surface and what is
hidden underneath at
the same time.

Childrens Encyclopedia

Britannica Books
This reduced
format book
introduces the
reader to world
history from the
first civilizations to
the early 20th
century, using

short, visual chapters. The Usborne Internet-linked Encyclopedia of World Geography with Complete World Atlas Usborne Pub Limited This reference work covers the most important dates in world history from 9000BC up to the early 21st century. Containing over 2500 dates, it gives an overview of the major events of world history in chronological order. Count to 100 Usborne Pub Limited A number book like

no other, introducing children to the significance of different numbers and the things they are associated with. Did you know that an octopus has 3 hearts, every snowflake has 6 points, giraffes have 7 bone in their necks, cloud cover is measure in 'oktas' from 0 to 8, and that 9 is lucky in China (but unlucky in Japan)? An unusual approach to a numbers book and a gorgeous and slightly eccentric illustration style will make this title stand out in a crowded retail environment. By the team who worked together on the acclaimed My First 100 Words

Book, Count to 100 and the award-winning Big Book of Colours (winner of the School Library Association's Under 7 Children's Choice Award 2016). An effortless and enjoyable way for children to learn about topics as diverse as fractions, counting, shapes, measuring, music, dates, animals, space, sports, geography and mythology through the magic of numbers. The Usborne Internet-linked Science Encyclopedia Williamson Books Discusses the world's oceans, the animals that live in them, and the threats they face from overfishing, pollution, and global

warming.
