amazing years of this iconic car, from its revolutionary introduction to the popularity of its new-generation models. The first two-door Mini, introduced in 1959 and built until 2000, revolutionized automotive design with its innovative front-wheel-drive layout that made the car appear bigger on the inside than the outside. In 1999, the Mini was voted the second most influential car of the 20th century, behind the Ford Model T. Designed

---

for British Motor Corporation (BMC) by Sir Alec Issigonis and manufactured in England, Australia, Spain, Belgium, Chile, Italy, Portugal, South Africa, Uruguay, Venezuela, and Yugoslavia, the Mini was as successful in competition as it was on the street, winning the Monte Carlo Rally four times from 1964 through 1967. Originally built by BMC, the Mini's later parent company, Rover, was acquired by BMW in

1994. In 2000, BMW sold most of the Rover Group but retained the Mini brand. The last and 5,387,862nd original Mini rolled off the production line in October 2000. In July 2001, BMW launched production of the new-generation of Mini which was soon joined by Countryman, Clubman, convertible, Cooper Works, and numerous special editions. Nearly 20 years later, the new Minis remain as popular as the original from 1959.

BMW MINI Porter Manuals According to Robyn Waters, it's a myth that trends can only be spotted early by überhip Bohemian types who are ever so much cooler than everyone else. She ought to know. Every letter from A to Z offers an insight to help readers navigate the unknown and prepare for whatever their costumers want next. Even if

you weren't born with a trendspotting bone in your body, you don't have to be a follower forever. No one these days can afford to just be catching on when others are already moving on. Waters stresses that recognizing and reacting to trends is a learned skill, and it can be acquired without spending time in the streets of Milan or the high schools of Orange County. If you've ever witnessed a trend unfolding and said to yourself, "I should have seen this coming," there's hope. You too can become a

trendmaster.
