Particularly famous for their great adventures in the Monte Carlo rally, works Minis humbled many bigger and more powerful cars during the 1960s and 1970s. Mechanic Brian Moylan spent 22 years in the workshops of the BMC Competitions Department where the works cars were built. Here, all the secrets of how ordinary production line Mini Coopers were converted into the mighty giant-killing Minis of motorsport are revealed in full. Contributions from ' Ginger ' Devlin & ' Jumping Jeff ' Williamson reveal in detail the modifications to the works racing and rallycross cars respectively. " ... invaluable to anyone restoring a period car ... good stuff if you ' re into nuts and bolts, and top value. " – Classic & Sports Car " ... a technical profile on the various modified Minis that were produced by the BMC competitions department for racing, rallying and rallycross. Separate chapters ... all backed up by appendices on the race and rallycross cars ... complete a package that will interest competitive Mini pilots " – Classics

Mini celebrates 60 amazing years of this iconic car, from its revolutionary introduction to the popularity of its new-generation models. The first two-door Mini, introduced in 1959 and built until 2000, revolutionized automotive design with its innovative front-wheel-drive layout that made the car appear bigger on the inside than the outside. In 1999, the Mini was voted the second most influential car of the 20th century, behind the Ford Model T. Designed for British Motor Corporation (BMC) by Sir Alec Issigonis and manufactured in England, Australia, Spain, Belgium, Chile, Italy, Portugal, South Africa, Uruguay, Venezuela, and Yugoslavia, the Mini was as successful in competition as it was on the street, winning the Monte Carlo Rally four times from 1964 through 1967. Originally built by BMC, the Mini's later parent company, Rover, was acquired by BMW in 1994. In 2000, BMW sold most of the Rover Group but retained the Mini brand. The last and 5,387,862nd original Mini rolled off the production line in October 2000. In July 2001, BMW launched production of the new-generation of Mini which was soon joined by Countryman, Clubman, convertible, Cooper Works, and numerous special editions. Nearly 20 years later, the new Minis remain as popular as the original from 1959.

Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.

Research Paper (undergraduate) from the year 2011 in the subject Business economics - Offline Marketing and Online Marketing, grade: 76 % (1,0), University of Exeter (Business School), language: English, abstract: 1. Introduction Consumers consider automobiles like the Mini not only as a means of conveyance but also express their attitudes towards life. The Mini fascinates people due to its outstanding design and image and touches its owners in an emotional way expressed through the brand's slogan characterized with an "emotional modifier" (Keller, 2008): Mini "Is it love?" (Automotive Intelligence, 2001). Successful automobile manufacturers realized that cars are not only purchased due to rational reasons but that it highly depends on its design, equipment and image. Due to the importance of the customer perception to a brand and also due to an increasing product portfolio, the goal of car makers is to differentiate their brand from competition by building a strong and unique image (Meffert et al., 2008). The goal of the subsequent paper is to analyse how BMW managed the Mini's brand significant revival. Beginning with a description of the brand and its related attributes, the paper analyses the Mini's brand performance in the last five years and its positioning related to its main competitors. Furthermore, it explains the brand's performance by analysing its customer perceptions and gives some recommendation how to capture and manage future opportunities and challenges. 2. Description of the brand Mini and its attributes Due to the closure of the Suez Canal and its combined oil crisis the engineer and designer Alec Issigonis received the mission from the British Leyland Motor Corporation to design a fuel-efficient car. During the 1960's the Mini's brand gained an image of cult and lifestyle however, the car was accident-sensitive and sales figures dropped significantly which is why the BMW Group overtook the Mini brand in 1994 (Bessing et al., 2006). BMW created a high-quality product which is well-known and well ranked in consumer reports. The Mini's pricing starts at €15.550 for the Mini One, €23.650 for the Mini Cooper S, €18.600 for the Mini Clubman and the Cabriolets' prices start at €20.950 (Geiger, 2010). The Mini is thus more expensive than its competitors like e.g. the VW Polo whose price starts at € 12.275 and ends at € 20.900 for the CrossPolo (Volkswagen AG, 2011). The core brand attributes of the Mini.....

[The Ultimate Mini Restoration Manual](#) Amberley Publishing Limited

Here for the first time is a short history of the small car from 1885 to 2000 and an examination of what came before, during, but not after the Mini, including the fairly complete story of the Mini and Mini Cooper from 1959 to 2000. James Ruppert is not used to spending very much money on cars, so when he decided to finish the restoration of his 1964 Cooper, started in 1979, the bills started to mount up and mentally he began to fall apart. Bought for 200 and a bottle of wine, it would eventually cost almost one hundred times that to finish. Serial Mini owner James Ruppert explains how not to buy, run or restore a classic car, and why owning one might be some form of unwellness. He's a man who can't be trusted with an old car, but can be relied upon to explain how the Mini came about and what it was up against throughout the decades. From the author of the critically acclaimed, The British Car Industry Our Part in its Downfall, and the Mercedes Montagu of Beaulieu winning The German Car Industry, My Part in its Victory, here is the full story of his seriously mistreated Mini and how the small car came to rule the world. James Ruppert has been a motoring journalist since the 1980s. He wrote for Car for almost twenty years, is a special correspondent for Autocar and has written for national newspapers including The Daily Telegraph, Sunday Times and The Independent. He coined the term Bangernomics, all about running vehicles on a budget and wrote the Bangernomics Bible. Ruppert is also the creator of the '70s superhero Spencer Haze comic strip.
