The Only Budgeting Book You'll Ever Need Delmar Pub

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil

Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up."

Cars I Could've, Should've, Kept Veloce Publishing

Ltd

A small business owner and lifelong lover of classic sports cars, Jackson Brooks began in the early 1960s to purchase, restore and enjoy a long succession of rare automotive beauties, many of which are million-dollar commodities in today ' s market. Not so much a collector as an enthusiast and entrepreneur, he recounts in this well-illustrated memoir how he found and selected the cars, some of which were on the verge of the scrap-heap, the process of restoring them, the challenges he confronted along the way, the ones that got away, and always the hunt for the next vehicle to spark his imagination. The cars, primarily sporting machines, include 8C-2.3 Alfa Romeos, a Jaguar SS100, three 1953 Ferrari 250MM Barchetta racers (of 13 built), a 1922 Mercedes Targa Florio racer, a Type 57 Bugatti, a 1929 Mercedes SSK (one of 33 built), four Talbot Lagos, and a 1937 Cord 812 Phaeton among many others, with particular concentrations on Ferrari and Alfa Romeo. Often the sale of one, after restoration and use, financed the

purchase of the next, and the text includes the purchase and sale prices as well as approximate present-day market values of the cars. Few people have enjoyed so much hands-on experience with so many of the world's most desirable automobiles.

Lemon-Aid New and Used Cars and Trucks
2007 – 2018 Simon and Schuster

An exclusive look at one of the world's most successful and controversial companies, and the mysterious family behind it. BMW is arguably the most admired carmaker in the world. It's financial performance is the envy of its competitors, and BMW

products inspire near-fanatical loyalty. While many carmakers struggle with falling sales, profits and market share, demand for BMWs continues to grow, frequently outpacing production. Now, David Kiley-Detroit Bureau Chief at USA Today and author of Getting the Bugs Out, which covered Volkswagen's demise and rebirth, goes inside the fabled German automaker to see how it does what it does so well. With unprecedented access to BMW executives, Kiley goes behind the walls of BMW's famed "Four Cylinders" headquarters in Munich at a time when the company is in its most aggressive, and some say riskiest, expansion in its history and when some of the company's new products, like the 7 Series sedan and Z4 roadster, are for the first time drawing as many barbs from critics as bouquets. Kiley covers intimate details of the boardroom drama surrounding the company's nearly disastrous acquisition and subsequent sale of the British Rover Group and its expansion into selling MINI and Rolls Royce cars. Besides being a world-class carmaker, BMW is also

considered one of the smartest consumer marketing companies and Kiley explores the extraordinary value and management of the BMW brand mystique. He also takes a revealing look at the mysterious and ultra-private Quandt family of Bad Homburg Germany, which owns a controlling stake in BMW: Johanna and Susanne Quandt, two of the wealthiest women in Europe and Stefan Quandt, one of the wealthiest bachelors on the continent. David Kiley (Ann Arbor, MI) is the Detroit Bureau Chief at USA Today who has covered the auto industry for 17 years. He has been featured on Nightline, CNBC, CNN, MSNBC, NPR and the Today show. He is also the author of *Getting the Bugs Out: The Rise, Fall, and Comeback of Volkswagen in America* (0-471-26304-4), also available from Wiley.

Auto Mania Motorbooks

The front-wheel-drive Saab 96 made the brand into a rally icon in the 1960s. It succeeded in events as diverse as the Monte Carlo, Britain's RAC rally, special stage events in every Scandinavian country, and the rough-and-tough Spa-Sofia-Liege Marathon. The big change came in 1967, when the 96 became the V4. Works cars continued to be competitive in carefully chosen events for many years, and when they became outdated, the V4's successors – the much larger and more powerful 99 and 99 Turbo types – proved that Saab wasn't done with rallying yet. More than any other car of its era, the 96 and V4 models proved that front-wheel-drive allied to true superstar driving could produce victory where no-one expected it.

Phil Edmonston, Canada's automotive "Dr.

Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric

car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki
