Mini celebrates 60 amazing years of this iconic car, from its revolutionary introduction to the popularity of its new-generation models. The first two-door Mini, introduced in 1959 and built until 2000, revolutionized automotive design with its innovative front-wheel-drive layout that made the car appear bigger on the inside than the outside. In 1999, the Mini was voted the second most influential car of the 20th century, behind the Ford Model T. Designed for British Motor Corporation (BMC) by Sir Alec Issigonis and manufactured in England, Australia, Spain, Belgium, Chile, Italy, Portugal, South Africa, Uruguay, Venezuela, and Yugoslavia, the Mini was as successful in competition as it was on the street, winning the Monte Carlo Rally four times from 1964 through 1967. Originally built by BMC, the Mini's later parent company, Rover, was acquired by BMW in 1994. In 2000, BMW sold most of the Rover Group but retained the Mini brand. The last and 5,387,862nd original Mini rolled off the production line in October, 2000. In July 2001, BMW launched production of the new-generation of Mini which was soon joined by Countryman, Clubman, convertible, Cooper Works, and numerous special editions. Nearly 20 years later, the new Minis remain as popular as the original from 1959.

Particularly famous for their great adventures in the Monte Carlo rally, works Minis humbled many bigger and more powerful cars during the 1960s and 1970s. Mechanic Brian Moylan spent 22 years in the workshops of the BMC Competitions Department where the works cars were built. Here, all the secrets of how ordinary production line Mini Coopers were converted into the mighty giant-killing Minis of motorsport are revealed in full. Contributions from 'Ginger' Devlin & 'Jumping Jeff' Williamson reveal in detail the modifications to the works racing and rallycross cars respectively. " ... invaluable to anyone restoring a period car ... good stuff if you're into nuts and bolts, and top value. " — Classic & Sports Car " ... a technical profile on the various modified Minis that were produced by the BMC competitions department for racing, rallying and rallycross. Separate chapters ... all backed up by appendices on the race and rallycross cars ... complete a package that will interest competitive Mini pilots " — Classics Stiffnuts (self-locking Nuts).
