Scandal in Seattle Rand Corporation  
From the New York Times bestselling author of Archer's Voice comes an "uplifting story of two broken souls" (Corinne Michaels) in this "exquisite, beautifully written romance" (Samantha Young). A broken woman . . . Crystal learned long ago that love brings only pain. Feeling nothing at all is far better than being hurt again. She guards her wounded heart behind a hard exterior and carries within her a deep mistrust of men, who, in her experience, have only ever used and taken. A man in need of help . . . Then Gabriel Dalton walks into her life. Despite the terrible darkness of his past, there's an undeniable goodness in him. And even though she knows the cost, Crystal finds herself drawn to Gabriel. His quiet strength is wearing down her defenses and his gentle patience is causing her to question everything she thought she knew. Only love can mend a shattered heart . . . Crystal and Gabriel never imagined that the world, which

had stolen everything from them, would bring them a deep love like this. Except fate will only take them so far, and now the choice is theirs: Harden their hearts once again or find the courage to shed their painful pasts.

She will not rest until the man who upended her world is

---

brought to his personal and financial knees. She won't settle for just upending his world in return. She's going for full-blown annihilation. Ally's barely in Seattle a day before complications arise. She begins making slips. She's one error away from being pulled from the biggest Errand of her career when she comes face to face with Henry Callahan. Former lover. Current Target. Things just went from complicated to catastrophic.

HARD KNOX Harper Collins  
Seduction. Infidelity. Blackmail. Scandal. It can all be bought for the right price and for Sienna Stevens, business is good. Because she's in the business of Great Exploitations. She's an Eve, a member of a secret society of women contracted by the wives of wealthy, powerful men for one

reason and one reason only: to seduce their husbands. To ensure their pre-nuptial agreement will be null and void thanks to a little loophole known as the Infidelity Clause. To ensure that those wives don't find themselves on the other side of a divorce without a penny to their name. When it comes to the Eves, Sienna's one of the best because she follows the number one rule of the Eves to the letter: don't let it get personal.

When the job file of her wealthiest client yet falls into her lap, Sienna realizes that this case could be the one that's impossible to detach herself from. The payout would lead to her independence, but will the cost be too high in the end?

literally born to hitchhike, and the freest female of them all. Freedom, its prizes and its prices, is a major theme of Tom Robbins's classic tale of eccentric adventure. As his robust characters attempt to turn the tables on fate, the reader is drawn along on a tragicomic joyride across the badlands of sexuality, wild rivers of language, and the frontiers of the mind. <i>In Fury Lies</i> <i>Mischief</i> Nicole Williams "Civil wrongs occupy a significant place in private law.	They are particularly prominent in tort law, but equally have a place in contract law, property and intellectual property law, unjust enrichment, fiduciary law, and in equity more broadly. For example, some tort theorists maintain that tort law is best understood as a (or perhaps the) law of civil wrongs and some contract law theorists maintain that breach of contract is a civil wrong. Civil wrongs are also a preoccupation of leading general

theories of private law, including corrective justice and civil recourse theories. According to these and other theories, the centrality of civil wrongs to civil liability shows that private law is fundamentally concerned with the expression and enforcement of norms of justice appropriate to interpersonal interaction and association. Others, sounding notes of caution or criticism, argue that a preoccupation with wrongs and remedies has meant neglect of other ways in which private law serves justice, and ways in which private law serves values other than justice. The present volume comprises original papers written by a wide variety of legal theorists and philosophers exploring the nature of civil wrongs, their place in private law, and their relationship to other forms of wrongdoing. It should be of broad interest to lawyers and legal theorists as well as moral and political theorists"--

Teaching Sound Film: A Reader is a film analysis-and-criticism textbook that contains 35 essays on 35 geographically diverse, historically significant sound films. The countries represented here are France, Italy, England, Belgium, Russia, India, China, Cuba, Germany, Japan, Russia, Romania, Czechoslovakia, Brazil, Taiwan, Austria, Afghanistan, South Korea, Finland, Burkina Faso, Mexico, Iran, Israel, Colombia,

and the United States. The directors represented include Jean Renoir, Orson Welles, Akira Kurosawa, Federico Fellini, Woody Allen, Aki Kaurismäki, Ken Loach, Tomás Gutiérrez Alea, Abbas Kiarostami, Michael Haneke, and Hong Sang-soo. Written with university students (and possibly also advanced high school students) in mind, the essays in *Teaching Sound Film: A Reader* cover some of the central films treated—and central issues raised—in today's cinema courses and provide students with practical models to help them improve their own writing and analytical skills.

These essays are clear and readable—that is, sophisticated and meaty yet not overly technical or jargon-heavy. This makes them perfect introductions to their respective films as well as important contributions to the field of film studies in general. Moreover, this book's scholarly apparatus features credits, images, bibliographies for all films discussed, filmographies for all the directors, a list of topics for writing and discussion, a glossary of film terms, and an appendix containing three essays, respectively, on film acting, avant-garde

cinema, and theater  
vs. film.

Cyber War Nicole

This book is the first comprehensive study of Anglophone literature depicting the British Imperial system of indentured labor in the Caribbean. Through an examination of intimate relationships within indenture narratives, this text traces the seductive hierarchies of empire – the oppressive ideologies of gender, ethnicity, and class that developed under imperialism and indenture and that continue to impact the Caribbean today. It demonstrates that British colonizers, Indian and Chinese laborers, and formerly

enslaved Africans negotiated struggles for political and economic power through the performance of masculinity and the control of migrant women, and that even those authors who critique empire often reinforce patriarchy as they do so.

Further, it identifies a common thread within the work of those authors who resist the hierarchies of empire: a poetics of kinship, or, a focus on the importance of building familial ties across generations and across classifications of people.

Eve isn't used to failure. Especially when it comes to her Errands, but that's exactly where she finds herself waking up in a hospital bed, bruised and bloodied. Not only has the Tucker Errand been derailed, Henry Callahan's is about to do the same.

When G informs Eve that the competition is moving in on Henry, she orders her to drop the Tucker Client and get back to Henry, forcing Eve to decide what's more important: winning the big-time Errands, or keeping her promises to her small-time Clients. Whatever her answer, she knows one thing—she can't succeed at both without threatening to fail everyone.

She was everything that I wanted. He was everything that I despised. Until she wasn't. Until he wasn't. Killian Cornelli was a walking calamity. He reached inside of me and touched every single inch of my ruined soul, but he didn't

just touch it. He caressed, petted, and captivated it. He tailored me to fit into the palm of his hands. The same hands that possess so much cruelty, were the very same that comforted me. I thought I knew him. He thought he knew me. This isn't a fairy tale, or some aching beautiful story about two soul mates who instantly fall irrevocably in love with each other. This is a story about a love so painful, so rich, that it destroys everything and everyone around it. Including ourselves. Midnight Mayhem is the platform to which Killian performs his tricks on, but the greatest trick wouldn't come from him. It would come from me. Tricksters don't have hearts. They
