One of Janet Maslin's Favorite Books of 2018, The New York Times One of John Warner's Favorite Books of 2018, Chicago Tribune Named one of the "Best Civil War Books of 2018" by the Civil War Monitor "A fascinating and important new historical study." —Janet Maslin, The New York Times "A stunning contribution to the historiography of Civil War memory studies." —Civil War Times The stunning, groundbreaking account of "the ways in which our nation has tried to come to grips with its original sin" (Providence Journal) Hailed by the New York Times as a "fascinating and important new historical study that examines . . . the place where the ways slavery is remembered mattered most," Denmark Vesey's Garden "maps competing memories of slavery from abolition to the very recent struggle to rename or remove Confederate symbols

across the country" (The New Republic). This timely book reveals the deep roots of present-day controversies and traces them to the capital of slavery in the United States: Charleston, South Carolina, where almost half of the slaves brought to the United States stepped onto our shores, where the first shot at Fort Sumter began the Civil War, and where Dylann Roof murdered nine people at Emanuel A.M.E. Church, which was co-founded by Denmark Vesey, a black revolutionary who plotted a massive slave insurrection in 1822. As they examine public rituals, controversial monuments, and competing musical traditions, "Kytile and Roberts's combination of encyclopedic knowledge of Charleston's history and empathy with its inhabitants' past and present struggles make them ideal guides to this troubled history" (Publishers Weekly, starred review). A work the Civil War Times called "a stunning contribution," Denmark Vesey's Garden exposes a hidden dimension of America's deep racial divide, joining the small bookshelf of major, paradigm-shifting interpretations of slavery's enduring legacy in the United States.

Pretty Takes Practice John Wiley & Sons In this fresh and fascinating chronicle of Christianity in the contemporary South, historian and minister James Hudnut-Beumler draws on extensive interviews and his own personal journeys throughout the region over the past decade to present a comprehensive portrait of the South's long-dominant religion. Hudnut-Beumler traveled to both rural and urban communities, listening to the faithful talk about their lives and beliefs. What he heard pushes hard against prevailing notions of southern Christianity as an evangelical Protestant monolith so predominant as to be

unremarkable. True, outside of a few spots, no non-Christian group forms more than six-tenths of one percent of a state's population in what Hudnut-Beumler calls the Now South. Drilling deeper, however, he discovers an unexpected, blossoming diversity in theology, practice, and outlook among southern Christians. He finds, alongside traditional Baptists, black and white, growing numbers of Christians exemplifying changes that no one could have predicted even just forty years ago, from congregations of LGBT-supportive evangelicals and Spanish-language church services to a Christian homeschooling movement so robust in some places that it may rival public education in terms of acceptance. He also finds sharp struggles and political divisions among those trying to reconcile such Christian values as morality and forgiveness—the aftermath of the mass shooting at Charleston's Emanuel A.M.E. Church in 2015 forming just one example. This book makes clear that understanding the twenty-first-century South means recognizing many kinds of southern Christianities.

Immigration, Emigration and Migration consists of essays written by distinguished scholars across the fields of law, political science, and philosophy that examine questions of travel and migration across national borders. Questions of immigration and border enforcement practices are particularly salient in contemporary public discourse, and examinations of policy and practice bring forth new philosophical quandaries. Why the common assumption that each country has the right to control its own borders? How are laws that restrict or regulate migration created and justified? Why has the criminalization of migration increased? How can migration be better considered through the point of view of the migrants themselves? What are the differences in international and national institutional migratory policy? The volume explores questions of border control and enforcement, criminalization of borders, and how to address current debates and changes in regards to migration and immigration. The intersection of analysis and prescription provides both an assessment of current forms of thought or regulation and suggestion of alterations to address the flaws or failures of present approaches. The eight essays in this volume reflect a variety of considerations and explorations across interdisciplinary lines, and provide a new and thought-provoking discussion of policy, practice, and philosophy of migratory and border practices.

Charla Muller's first book, 365 Nights, was called "entertaining" (Albuquerque Journal), "surprising [and] remarkable" (The Independent [London]). It also launched her into the public eye—and brought her to a moment of painful realization... For an average working mom like Charla, going on a book tour was both intimidating and exciting. It also turned out to be horrifying: When she saw herself on a screen in glorious, unforgiving HD, it magnified all her flaws, prompted comments from unadoring fans, and forced her to reevaluate her (lack of) exercise regimen. But Charla was jolted into action and used that cringe-inducing close-up as a wakeup call. After shedding a few tears over how she'd let herself go (and over the five-year-old discount sweater she wore on Oprah), she set out on a strange, hilarious, and poignant journey that tapped into and tested her values, her beliefs about beauty, her self-image, and, of course, her relationship with her mother. In this lively, funny, moving account, a Southern woman shares stories she swore she'd never tell—and ultimately offers some unexpected and universal insight about how pretty takes practice. Remember Me to Miss Louisa Boydell & Brewer South Carolina Fire-Eater is the first book-length biography of Laurence Massillon Keitt, one of South Carolina's most notorious advocates of secession and apologists for African American slavery. A politician who wanted to be a statesman, a Hotspur who wanted to be a distinguished military leader, Keitt was a U. S. congressman in the 1850s, signed the Ordinance of Secession, and represented his rebellious state in the Confederate Congress in 1861. Through this thoroughly researched volume, Holt Merchant offers a comprehensive history of an important South Carolina figure. As a congressman, Keitt was responsible for no legislation of any significance, but he was in the midst of every southern crusade to assert its "rights": to make Kansas a slave state, to annex Cuba, and to enact a territorial slave code. In a generation of politicians famous for fiery rhetoric, Keitt was among the most provocative southerners. His speeches in Congress and on the stump vituperated "Black Republicans" and were filled with references to medieval knight errantry, "lance couched, helmet on, visor down," and threats to "split the Federal temple from turret to foundation stone." His conception of personal honor and his hot temper frequently landed him in trouble in and out of public view. He acted as "fender off" in May 1855 when his fellow representative Preston Brooks caned Charles Sumner on the Senate floor. In 1858 he instigated a brawl on the floor of the House of Representatives that involved some three dozen congressmen. Amid the chaos of his personal brand of politics, Keitt found time to woo and wed a beautiful, intelligent, and politically astute plantation belle who after his death restored the family fortune and worked to embellish her late husband's place in history. After Abraham Lincoln was elected president, Keitt and the rest of the South Carolina

delegation resigned their seats in Congress. He then negotiated unsuccessfully the surrender of Fort Sumter with lame-duck president James Buchanan, played a major role in the December 1860 Secession Convention that led his state out of the Union, and a lesser role in the convention that formed the Confederacy. Bored with his position as a member of the Confederate Congress, Keitt resigned his seat and raised the 20th South Carolina Infantry. Keitt spent most of the war defending Charleston Harbor, sometime commanding Battery Wagner, the site of the July 18, 1863, assault by the 54th Massachusetts Regiment of African American troops, made famous by the movie *Glory*. Keitt took command the day after that battle and was the last man out of the battery when his troops abandoned it in September 1863. In May 1864, his regiment joined the Army of Northern Virginia and Keitt took command of Kershaw's Brigade. Inexperienced in leading troops on the battlefield he launched a head-long attack on entrenched Federal cavalry in the June 1, 1864, Battle of Cold Harbor. Keitt was mortally wounded advancing in the vanguard of his brigade. With that last act of bravado, Keitt distinguished himself. He was among the few fire-eater politicians to serve in the military and was likely the only one to perish in combat defending the Confederacy.

A fresh exploration of American feminist history told through the lens of the beauty pageant world. Many predicted that pageants would disappear by the 21st century. Yet they are thriving. America's most enduring

contest, Miss America, celebrates its 100th anniversary in 2020. Why do they persist? In *Here She Is*, Hilary Levey Friedman reveals the surprising ways pageants have been an empowering feminist tradition. She traces the role of pageants in many of the feminist movement's signature achievements, including bringing women into the public sphere, helping them become leaders in business and politics, providing increased educational opportunities, and giving them a voice in the age of #MeToo. Using her unique perspective as a NOW state president, daughter to Miss America 1970, sometimes pageant judge, and scholar, Friedman explores how pageants became so deeply embedded in American life from their origins as a P.T. Barnum spectacle at the birth of the suffrage movement, through Miss Universe's bathing beauties to the talent- and achievement-based competitions of today. She looks at how pageantry has morphed into culture everywhere from *The Bachelor* and *RuPaul's Drag Race* to cheer and specialized contests like those for children, Indigenous women, and contestants with disabilities. Friedman also acknowledges the damaging and unrealistic expectations pageants place on women in society and discusses the controversies, including Miss America's ableist and racist history, Trump's ownership of the Miss Universe Organization, and the death of child pageant-winner JonBenét Ramsey. Presenting a more complex narrative than what's been previously portrayed, *Here She Is* shows that as American women continue to evolve, so too will beauty pageants.

This 664 page law and logic book contains the most comprehensive and detailed description of the composition of argument ad hominem ever published, revealing this form of argument to be a far broader fallacy than was previously known. Like perjury, argument ad hominem can deceive juries and cause unjust trial verdicts. There is, fortunately, already a criminal law against perjury, but, unfortunately, there is currently no law that expressly prohibits argument ad hominem in trials. The book includes the text of a proposed criminal law that expressly prohibits argument ad hominem in trials, and shows the necessity of such a law to counter effectively this quite common form of injustice in jury trials. Winner of the Mississippi Institute of Arts and Letters' Nonfiction Award The dominant narrative

of the role of white citizens and the white church in Mississippi's civil rights era focuses on their intense resistance to change. The "Born of Conviction" statement, signed by twenty-eight white Methodist pastors and published in the *Mississippi Methodist Advocate* on January 2, 1963, offered an alternative witness to the segregationist party line. Calling for freedom of the pulpit and reminding readers of the Methodist Discipline's claim that the teachings of Jesus permit "no discrimination because of race, color, or creed," the pastors sought to speak to and for a mostly silent yet significant minority of Mississippians, and to lead white Methodists to join the conversation on the need for racial justice. The document additionally expressed support for public schools and opposition to any attempt to close them, and affirmed the signers' opposition to Communism. Though a few individuals, both laity and clergy, voiced public affirmation of "Born of Conviction," the overwhelming reaction was negative-by mid-1964, eighteen of the signers had left Mississippi, evidence of the challenges faced by whites who offered even mild dissent to massive resistance in the Deep South. Dominant narratives, however, rarely tell the whole story. The statement caused a significant crack in the public unanimity of Mississippi white resistance. Signers and their public supporters also received private messages of gratitude for their stand, and eight of the signers would remain in the Methodist ministry in Mississippi until retirement. *Born of Conviction* tells the story of "the Twenty-Eight" illuminating the impact on the larger culture of this attempt by white clergy to support race relations change. The book explores the theological and ethical understandings of the signers through an account of their experiences before, during, and after the statement's publication. It also offers a detailed portrait of both public and private expressions of the theology and ethics of white Mississippi Methodists in general, as revealed by their responses to the "Born of Conviction" controversy.

This book explores how museums, galleries and heritage sites of all kinds, through the narratives they construct and publicly present, can shape the moral and political climate within which human rights are experienced. Through a series of richly-drawn cases, which focus on gender diversity and same-sex love and desire, Richard Sandell examines the ways in which museums are implicated in the ongoing struggle for lesbian, gay, bisexual, transgender and intersex human rights. *Museums, Moralities and Human Rights* brings together for the first time the perspectives not only of those who work in, govern, fund and visit museums but also those of rights activists and campaigners who, at key moments in their struggle, have turned their attention to museums to advance their cause. Offering new insights into how human rights are continually fought for, realised and refused, this volume makes the case for museums of all kinds to take up an active, mindful and purposive engagement with contemporary human rights concerns.

Linguistics is important. An understanding of linguistic principles is as essential to the layperson as it is to the language scholar. Using concrete examples from politics, law, and education, this book shows how people misconceive language every day and what the consequences of misconceptions can be. Since the meanings of words are often fuzzy at best, this volume argues for a flexible approach to meaning and definitions, and demonstrates how this approach can help us understand many conflicts. It is an alternative way of viewing and doing sociolinguistics. **Language Misconceived: Arguing for Applied Cognitive Sociolinguistics** is intended primarily for graduate and Ph.D. students of linguistics, especially those interested in applying linguistics to fields like politics, law, and education. It may also be recommended to seasoned linguists as well as researchers in communication, sociology, psychology, and education.

Born of Conviction Oxford University Press
It is generally recognized that antebellum interracial relationships were "notorious" at the neighborhood level. But we have yet to fully uncover the complexities of such relationships, especially from freedwomen's and children's points of view. While it is known that Cincinnati had the largest per capita population of mixed race people outside the South during the

antebellum period, historians have yet to explore how geography played a central role in this outcome. The Mississippi and Ohio Rivers made it possible for Southern white men to ferry women and children of color for whom they had some measure of concern to free soil with relative ease. Some of the women in question appear to have been "fancy girls," enslaved women sold for use as prostitutes or "mistresses." Green focuses on women who appear to have been the latter, recognizing the problems with the term "mistress," given its shifting meaning even during the antebellum period. *Remember Me to Miss Louisa*, among other things, moves the life of the fancy girl from New Orleans, where it is typically situated, to the Midwest. The manumission of these women and their children—and other enslaved women never sold under this brand—occurred as America's frontiers pushed westward, and urban life followed in their wake. Indeed, Green's research examines the tensions between the urban Midwest and the rising Cotton Kingdom. It does so by relying on surviving letters, among them those from an ex-slave mistress who sent her "love" to her former master. This relationship forms the crux of the first of three case studies. The other two concern a New Orleans young woman who was the mistress of an aging white man, and ten Alabama children who received from a white planter a \$200,000 inheritance (worth roughly \$5.1 million in today's currency). In each case, those freed people faced the challenges characteristic of black life in a largely hostile America. While the frequency with which Southern white men freed enslaved women and their children is now generally known, less is known about these men's financial and emotional investments in them. Before the Civil War, a white Southern man's pending marriage, aging body, or looming death often compelled him to free an African American woman and their children. And as difficult as it may be for the modern mind to comprehend, some kind of connection sometimes existed between these individuals. This study argues that such men—though they hardly stand excused for their ongoing claims to privilege—were hidden actors in freedwomen's and children's attempts to survive the rigors and challenges of life as African Americans in the years surrounding the Civil War. Green examines many facets of this phenomenon in the hope of revealing new insights about the era of slavery. Historians, students, and general readers of US history, African American studies, black urban history, and antebellum history will find much of interest in this fascinating study.

Strangers and Friends at the Welcome Table
Taylor & Francis

Society is increasingly affected by climate impacts, from prolonged water shortages to damaging coastal floods and wildfires. Scientists studying climate variations are eager to have their knowledge used in adaptive decision making. To achieve this, science and society must engage productively around complex management and policy challenges. For over 20 years, the science-

society interface has been fertile ground for the Regional Integrated Sciences and Assessments (RISA) programs sponsored by the U.S. National Oceanic and Atmospheric Administration. *Climate in Context* describes what it takes to help scientists and stakeholders work together to "co-produce" climate science knowledge, policy, and action. This state-of-the-art synthesis reflects on lessons learned by RISA programs, and provides a sober assessment of the challenges ahead. Through case studies from various US regions, this book provides lessons and guidance for organizations and individuals who want to work at the science-society interface on a range of climate challenges.
