The 6G7 series or Cyclone V6 engine is a series of V6 piston engines from Mitsubishi Motors. Five displacement variants have been produced from 1986 to present day, with both SOHC and DOHC, naturally aspirated and turbo charged layouts. While MIVEC variable valve timing has also been implemented in some versions the 2.5, 3.0 and 3.5 L versions were also available with gasoline direct injection.

Pajero 6g74 Repair Manual - orrisrestaurant.com

The model debuted in 1987. Initially Magna was equipped with in-line four-cylinder engines and bodies sedan and station wagon. Over the years, each new series increased in size, and with the second generation in 1991, the range was supplemented by a luxury version called Mitsubishi Verada with a V6 engine. During this time, Mitsubishi Verada and Mitsubishi Magna became the first Australian ...
