Ken Genie knows tragedy. His dad passed away and his brother ditched town. Ken also knows cars. He studies them, obsessively. But his mother is afraid to lose another son, and she won't let Ken get behind the wheel. Local millionaire Edmond Tremonte has a grudge against the Genie family. And he plans to take it out on their entire Alaska town. When Tremonte loses his business and then his mind, he builds a mechanical beast designed for maximum damage. And despite the wishes of Ken's mom,

Ken and his Mitsubishi might be the only things that can stop Tremonte's reign of terror. Includes real tech specs and tuning details for the Mitsubishi Eclipse!

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market

shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

The photos in this edition are black and white. Mitsubishi's 4G63t engine is among the most powerful engines ever in the sport-compact world. It's not uncommon to find one of these four-cylinder, iron-block, aluminum-headed, 2-liter turbocharged monsters making more than 1,000 horsepower with the right modifications and tuning - well above the 200-300 hp produced in the factory-made engines. Bolted into such cars as the Mitsubishi Lancer Evolution, Eclipse, and Galant, and the Eagle Talon and Plymouth Laser, the 4G63t has more than a cult following among sport-compact enthusiasts, who know and respect this engine's immense performance potential at the track or on the street. Up until now, in-depth performance information on the 4G63t has been hard to find. For this book, author Robert Bowen went straight to the source, Robert Garcia of Road/Race Engineering in Santa Fe Springs, California. RRE is the most well-known and respected Mitsubishi turbo performance shop in the United States, and Garcia is its in-house engine builder. Mitsubishi enthusiasts will benefit from Garcia's expertise and be able

to build better, stronger engines than ever before. "How to Build Max-Performance Mitsubishi 4G63t Engines" covers every system and component of the engine, including the turbocharger system and engine management. More than just a collection of tips and tricks, this book includes a complete history of the engine and its evolution, an identification guide, and advice for choosing engine components and other parts. Profiles of successful built-up engines show the reader examples of what works, and the book includes helpful guidance for choosing your own engine building path.

Popular Mechanics David and Charles

The Lancer name conjures up many different images. For some, it evokes memories of the first generation cars, introduced in 1973, which fought with the best on the Safari Rally and came out the victors. Others will remember the second generation models especially the turbocharged versions, the original Mitsubishi wolf in sheep's clothing and who could not be aware of the Evolution (Evo) series, launched in 1992? Forged in the fierce heat of WRC competition and honed by years of continuous development, the Lancer Evolution is not only one of the greatest rally cars of all time, it is also a desirable high-performance road car, too. Written in Japan with the full cooperation of Mitsubishi and key staff members, this is the definitive international story of all the world's Lancers, whether they carried Mitsubishi, Dodge, Colt, Plymouth, Valiant, Eagle, Proton or Hyundai badges, with special

emphasis on the Evolution models.
