DoD Building Code (General Building Requirements) Simon & Schuster

Michael, Duke of Blixford, was all Lady Jane Lennox ever wanted in a husband. Growing up with her gregarious widower papa and six raucous older brothers, Jane was drawn to the handsome, taciturn duke and purposefully set her cap for him. Unfortunately, despite his attraction to her, the duke was less than impressed with her unladylike skills, and after he ruined her, then proposed at the same time he called her his very last choice as his duchess, she fled to Scotland. To keep the ducal title and holdings from reverting to the crown, Michael needs a wife to give him an heir - but he doesn't need to love her. Called the Duke of Death, a pariah said to have demon seed, Michael has lost three wives in childbed. His worst nightmare is following his father into grief driven madness after the woman he loved died. His iron discipline failed him four years ago when he succumbed to his fascination with Jane, and his fury was great when she jilted him. Now, she's returned to London and, just as he is her only choice, she is his last chance. She's determined to have a real marriage; he's determined to hold her at arm's length. But when the past catches up and old ghosts demand their due, Jane is devastated, and Michael risks everything to save his last duchess from permanent ruin. All he has to do is not fall in love.

Clinical Intensive Care and Acute Medicine Pink Publishing LLC
This new edition provides an accessible account of the essentials of intensive care medicine. The core of the book focuses on areas common to all critically ill patients including fluid therapy, sedation, shock, infection and other central topics. This key understanding of basic pathophysiological principles provides an excellent launch pad for the section on individual disease entities encompassing haematology, gastroenterology, nephrology, endocrinology, the respiratory system, cardiovascular pathology, poisoning and neurology. Economic and ethical issues are also covered, and the text is supported by numerous problem-oriented guidelines to help the care provider tackle real-life practical problems as encountered in the ICU. In the same spirit, wherever possible, the authors provide precise and meaningful advice, rather than bland generalisations. This new edition reflects the excitement, challenges and uniqueness of intensive care medicine, for the benefit of all residents, trainees, nursing staff and paramedics attached to the ICU.

"The Candide of our #@\$*%?! age."— Ken Liu, award-winning author Catherynne M. Valente, the bestselling and award-winning creator of *Space Opera* and *The Girl Who Circumnavigated Fairyland* returns with *The Past Is Red*, the enchanting, dark, funny, angry story of a girl

who made two terrible mistakes: she told the truth and she dared to love the world. A Hugo Award finalist! An inaugural Ursula K. Le Guin Prize for Fiction finalist! A Locus Award finalist! The future is blue. Endless blue...except for a few small places that float across the hot, drowned world left behind by long-gone fossil fuel-guzzlers. One of those patches is a magical place called Garbagetown. Tetley Abednego is the most beloved girl in Garbagetown, but she's the only one who knows it. She's the only one who knows a lot of things: that Garbagetown is the most wonderful place in the world, that it's full of hope, that you can love someone and 66% hate them all at the same time. But Earth is a terrible mess, hope is a fragile thing, and a lot of people are very angry with her. Then Tetley discovers a new friend, a terrible secret, and more to her world than she ever expected. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Past Is Red Wiley

Although Indonesia has the fourth largest population in the world, its history is still relatively unknown. Adrian Vickers takes the reader on a journey across the social and political landscape of modern Indonesia, starting with the country's origins under the Dutch in the early twentieth-century, and the subsequent anti-colonial revolution which led to independence in 1949. Thereafter the spotlight is on the 1950s, a crucial period in the formation of Indonesia as a new nation, followed by the Sukarno years, and the anti-Communist massacres of the 1960s when General Suharto took over as president. The concluding chapters chart the fall of Suharto's New Order after thirty two years in power, and the subsequent political and religious turmoil

which culminated in the Bali bombings in 2002. Adrian Vickers is Professor of Asian Studies at the University of Wollongong. He has previously worked at the Universities of New South Wales and Sydney, and has been a visiting fellow at the University of Indonesia and Udayana University (Bali). Vickers has more than twenty-five years research experience in Indonesia and the Netherlands, and has travelled in Southeast Asia, the U.S. and Europe in the course of his research. He is author of the acclaimed Bali: a Paradise Created (Penguin, 1989) as well as many other scholarly and popular works on Indonesia. In 2003 Adrian Vickers curated the exhibition Crossing Boundaries, a major survey of modern Indonesian art, and has also been involved in documentary films, including Done Bali (Negara Film and Television Productions, 1993).

If you like this book (or the Kindle version), please leave positive review. This update to UFC 1-200-01 represents the Tri-Services effort to bring uniformity to the military use of non-government model building codes. Technical representatives of each of the four Services developed requirements in this document to implement the use of the 2015 International Building Code (IBC) consistent with the scope of current military requirements and procedures. This UFC applies to the design and construction of new and renovated Government-owned facilities for the Department of Defense (DoD). It is applicable to all methods of project delivery and levels of construction. Includes a list of applicable NIST cybersecurity publications for consideration. Why buy a book you can download for free? First you gotta find it and make sure it's the latest version (not always easy). Then you gotta print it using a network printer you share with 100 other people - and its outta paper - and the toner is low (take out the toner cartridge, shake it, then put it back). If it's just 10 pages, no problem, but if it's a 250-page book, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. An engineer that's paid \$75 an hour has to do this himself (who has assistant's anymore?). If you are paid more than \$10 an hour and use an ink jet printer, buying this book will save you money. It's much more cost-effective to just order the latest version from Amazon.com This book is published by 4th Watch Books and includes copyright material.
