Now, Richard J. Schonberger, the architect of the worldwide Just-In-Time revolution, reaches beyond "financials" to redefine excellence -- and reveals, with new benchmark data, how pioneers become dynasties. Schonberger's pathbreaking new research reveals that, from 1950 to 1995, while "financials" dipped and soared repeatedly, industrial decline and ascendancy correlated perfectly with inventory turnover -- one of two key nonfinancial indicators and a bedrock measure, along with customer satisfaction, of a company's power, strength, and

value. In this immensely readable book, he captures these new metrics -- the true predictions of future success -- in 16 customer-focused principles created from self-scored reports supplied by over 100 pioneering manufacturers in nine countries. Armed with new world-class benchmark data, Schonberger redefines excellence in terms of competence, capability, and customer-focused, employee-driven, data-based performance. For front-tine associates to senior executives, Schonberger has written manufacturing's action agenda for the next decade. This book will be indispensable reading for manufacturing and general managers in all industries, as well as for pension fund managers, institutional investors, stock analysts, and stockbrokers.

It is the 26th minute of the  
Finland-Russia semifinal of the  
2011 IIHF Ice Hockey World  
Championships: Finnish player

Mikael Granlund, just 19 years old, skates around behind the Russian goal. Suddenly he scoops the puck onto the toe of his blade, glides forward past the side of the goal and slams the puck into the net. The players and spectators go wild. It was a once-in-a-lifetime goal, a goal that was an artistic masterpiece, so beautiful that the Finnish post office created a stamp to celebrate it. Contrast that story with this one: in Sparta Prague's home arena, Vladimr Novcek steers the ice resurfacing machine around the rink. What's so special about that? Novcek has been maintaining the ice for Sparta since 1968; he is now 82 years old. His work doesn't prompt much excitement, and he certainly doesn't have his own postage stamp. Still, the young Finnish world champion and the elderly Czech ice manager are united by their dedication to the sport of ice hockey. Their stories and many others are told in *We Love Hockey*. The very personal and emotional vignettes and stunning photographs make this book extremely exciting and give it a very special place in the sports

literature market. It's about the greatest and the smallest moments, the men and women who are passionate about this sport, and everything that makes ice hockey so fascinating.

*Faithful colors* is a book written with excitement and passion for the lust of love. It is a mysterious book of poems and pleasure associated with love, intimacy, and faithfulness in the mind of one man. It is a humble book, with some nice words and poems, that is sweet and unique.

---

But don't get me wrong, this book  
does get a little rough, rugged,  
and raw, where my own faithfulness  
turns into unfaithfulness, but I'm  
grateful for every bite of the  
fruit.
