The photos in this edition are black and white. Mitsubishi's 4G63t engine is among the most powerful engines ever in the sport-compact world. It's not uncommon to find one of these four-cylinder, iron-block, aluminum-headed, 2-liter turbocharged monsters making more than 1,000 horsepower with the right modifications and tuning - well above the 200-300 hp produced in the factory-made engines. Bolted into such cars as the Mitsubishi Lancer Evolution, Eclipse, and Galant, and the Eagle Talon and Plymouth Laser, the 4G63t has more than a cult following among sport-compact enthusiasts, who know and respect this engine's immense performance potential at the track or on the street. Up until now, in-depth performance information on the 4G63t has been hard to find. For this book, author Robert Bowen went straight to the source, Robert Garcia of Road/Race Engineering in Santa Fe Springs, California. RRE is the most well-known and respected Mitsubishi turbo performance shop in the United States, and Garcia is its in-house engine builder. Mitsubishi enthusiasts will benefit from Garcia's expertise and be able to build better, stronger engines than ever before. "How to Build Max-Performance Mitsubishi 4G63t Engines" covers every system and component of the engine, including the turbocharger system and engine management. More than just a collection of tips and tricks, this book includes a complete history of the engine and its evolution, an identification guide, and advice for choosing engine components and other parts. Profiles of successful built-up engines show the reader examples of what works, and the book includes helpful guidance for choosing your own engine building path.

"A good read for anyone who wants to understand what actually determines whether a developing economy will succeed" (Bill Gates, "Top 5 Books of the Year"). An Economist Best Book of the Year from a reporter who has spent two decades in the region, and who The Financial Times said "should be

named chief myth-buster for Asian business." In *How Asia Works*, Joe Studwell distills his extensive research into the economies of nine countries—Japan, South Korea, Taiwan, Indonesia, Malaysia, Thailand, the Philippines, Vietnam, and China—into an accessible, readable narrative that debunks Western misconceptions, shows what really happened in Asia and why, and for once makes clear why some countries have boomed while others have languished. Studwell's in-depth analysis focuses on three main areas: land policy, manufacturing, and finance. Land reform has been essential to the success of Asian economies, giving a kick-start to development by utilizing a large workforce and providing capital for growth. With manufacturing, industrial development alone is not sufficient, Studwell argues. Instead, countries need "export discipline," a government that forces companies to compete on the global scale. And in finance, effective regulation is essential for fostering, and sustaining growth. To explore all of these subjects, Studwell journeys far and wide, drawing on fascinating examples from a Philippine sugar baron's stifling of reform to the explosive growth at a Korean steel mill. "Provocative . . . *How Asia Works* is a striking and enlightening book . . . A lively mix of scholarship, reporting and polemic." —The Economist

Germany's economic miracle is a widely-known phenomenon, and the world-leading, innovative products and services associated with German companies are something that others seek to imitate. In *The 'Made in Germany' Champion Brands*, Ugesh A. Joseph provides an extensively researched, insightful look at over 200 of Germany's best brands to see what they stand for, what has made them what they are today, and what might be transferable. The way Germany is branded as a nation carries across into the branding of its companies and services, particularly the global superstar brands - truly world-class in size, performance and reputation. Just as important are the medium-sized and small enterprises, known as the 'Mittelstand'. These innovative and successful enterprises from a wide range of industries and product / service categories are amongst the World market leaders in their own niche and play a huge part in making Germany what it is today. The book also focuses on German industrial entrepreneurship and a selection of innovative and emergent stars. All these companies are supported and encouraged by a sophisticated infrastructure of facilitators, influencers and enhancers - the research, industry, trade and standards organizations, the fairs and exhibitions and all the social and cultural factors that influence, enhance and add positive value to the country's image. Professionals or academics interested in

business; entrepreneurship; branding and marketing; product or service development; international trade and business development policy, will find fascinating insights in this book; while those with an interest in Germany from emerging industrial economies will learn something of the secrets of German success.

Ken Miles is one of the most famous sports car racers in history, and his time at Shelby American was the pinnacle of his career. Ride shotgun with Ken Miles through the twists and turns of Sebring, Laguna Seca, Riverside, and Le Mans as seen through the lens of Shelby American photographer Dave Friedman! The hiring of Ken Miles by Carroll Shelby in February 1963 initiated arguably the greatest pairing of driver/owner partnerships in the history of motorsports. Not only did Shelby hire Competition Manager Ken Miles as an accomplished road racer but also Miles brought professionalism, innovation, and a keen attribute of being able to surround himself with budding, talented individuals. The list of race cars that Ken piloted at Shelby American is nearly unrivaled: the Shelby 289 Cobra, 390 Cobra, 427 Cobra, King Cobra, Shelby Daytona, Mustang GT350R, and Ford GT. Ken dominated the 1964 United States Road Racing Championship (USRRC) racing season by winning 8 of 10 races to secure the Manufacturers' Championship. However, it was at Le Mans where Ken Miles became a worldwide household name. The robbery that was the 1966 24 Hours of Le Mans is laid out in excruciatingly accurate detail as Ford royalty Carroll Shelby, Carroll Smith, Homer Perry, Leo Beebe, Charlie Agapiou, Bob Negstad, Carroll Smith, and Peter Miles recall the race and the tragedy that followed two months later. Recapture Ken Miles's career as told by esteemed Shelby American photographer Dave Friedman in this firsthand account titled *Ken Miles: The Shelby American Years!*
