In Japan it's called the "Ghosn Shock"—the stunning arrest of Carlos Ghosn, the jet-setting CEO who saved Nissan and made it part of a global automotive empire. Even more shocking was his daring escape from Japan, packed into a box and put on a private jet to Lebanon after months spent in a Japanese detention center, subsisting on rice gruel. This is the saga of what led to the Ghosn Shock and what was left in its wake. Ghosn spent two decades building a colossal partnership between Nissan and Renault that looked like a new model for a global business, but the alliance's shiny image fronted an unsteady, tense operation. Culture clashes, infighting among executives and engineers, dueling corporate traditions, and government maneuvering constantly threatened the venture. Journalists Hans Greimel and William Sposato have followed the story up close, with access to key players, including Ghosn himself. Veteran Tokyo-based reporters, they have witnessed the end of Japan's bubble economy and attempts at opening Japan Inc. to the world. They've seen the fraying of keiretsu, Japan's traditional skein of business relationships, and covered numerous corporate scandals, of which the Ghosn Shock and Ghosn's subsequent escape stand above all. Expertly reported, *Collision Course* explores the complex suspicions around what and who was really responsible for Ghosn's ouster and why one of the top executives in the world would

risk everything to escape the country. It explains how economics, history, national interests, cultural politics, and hubris collided, crumpling the legacy of arguably the most important foreign businessman ever to set foot in Japan. This gripping, unforgettable narrative, full of fascinating characters, serves as part cautionary tale, part object lesson, and part forewarning of the increasing complexity of doing global business in a nationalistic world.

The Routledge Handbook of Systemic Functional Linguistics brings together internationally renowned scholars of systemic functional linguistics (SFL) to provide a space for critical examination of the key tenets underpinning SFL theory. Uniquely, it includes description of the three main strands within contemporary SFL scholarship: Halliday's Introduction to Functional Grammar, Martin's discourse semantics and Fawcett's Cardiff Grammar. In five sections and thirty-eight interdisciplinary chapters, this is the first handbook to cover the whole architecture of SFL theory, comprising: the ontology and epistemology of SFL; SFL as a clause grammar; lexicogrammar below the clause, and SFL's approach to constituency; SFL's vibrant theory of language above the clause; and SFL as a theory of praxis with real-world applications. With a wide range of language examples, a comprehensive editors' introduction and a section on further reading, The Routledge Handbook of Systemic Functional Linguistics is an essential resource for all those studying and researching SFL or functional grammar.

The Mitsubishi Pajero was first launched in 1983, creating a new class of 4x4, smaller and more affordable than the Range Rover. Renamed Shogun for the UK market, and Montero for Spain and the Americas, this rugged, yet

refined, off-roader rapidly became Mitsubishi's best-selling export product. In the 22 years since its introduction, the Shogun's popularity has gone from strength to strength, and in the UK grey imports of Pajeros now outnumber official Shoguns, while the Shogun brand has expanded to include the Shogun Sport and the Shogun Pinin. This fascinating book is essential reading for all Shogun owners and enthusiasts.

The long-awaited magnum opus from Haruki Murakami, in which this revered and bestselling author gives us his hypnotically addictive, mind-bending ode to George Orwell's 1984. The year is 1984. Aomame is riding in a taxi on the expressway, in a hurry to carry out an assignment. Her work is not the kind that can be discussed in public. When they get tied up in traffic, the taxi driver suggests a bizarre 'proposal' to her. Having no other choice she agrees, but as a result of her actions she starts to feel as though she is gradually becoming detached from the real world. She has been on a top secret mission, and her next job leads her to encounter the superhuman founder of a religious cult. Meanwhile, Tengo is leading a nondescript life but wishes to become a writer. He inadvertently becomes involved in a strange

disturbance that develops over a literary prize. While Aomame and Tengo impact on each other in various ways, at times by accident and at times intentionally, they come closer and closer to meeting. Eventually the two of them notice that they are indispensable to each other. Is it possible for them to ever meet in the real world?
