Bringing Out the Best in Yourself at Work Franklin Classics Trade Press

At the cross Christ made possible a "divine exchange" for everyone who believes in him. What is this exchange? Because Jesus endured all the evil due to humankind, believers can actually partake in all the good due to him. In this meaty book, acclaimed scholar Derek Prince explores the astounding results of the atonement for followers of Christ. In place of punishment, wounding, death, poverty, shame, and rejection, Christ freely offers forgiveness, healing, life, abundance, glory, and acceptance. In addition, Prince gives biblical grounding for five areas of deliverance that are made available through the cross: deliverance from this present evil age, from the law, from self, from the flesh, and from the world. This brand-new edition includes a new mini-study course at the end of each chapter, perfect for

individual or small group study.

Women Like Us: Feeling Overwhelmed, Overworked, Overweight and Over It? Allen & Unwin

The 1997 economic crisis ended two decades of pluralism in Thai politics and helped create the conditions for the landslide election victory in January 2001 of Thaksin Shinawatra, a fabulously wealthy telecommunications magnate often compared with Italian premier Silvio Berlusconi. Prime minister Thaksin has since exercised an extraordinary degree of personal dominance over the Thai political scene. The emergence of Thaksin and his Thai Rak Thai (Thais love Thai) Party has

transformed Thailand's electoral landscape, rendering previous analyses of Thai politics substantially outdated. This book will examine Thaksin's background, his business activities, the emergence of Thai Rak Thai, his relationship with the military, Thaksin's use of rhetoric through media such as radio, his wider political economy networks, and the future direction of Thai politics. This detailed but gripping study draws on extensive research by two leading specialists in the field.

Today, young cosmetics researchers who have completed their graduate studies and have entered a cosmetics company are put through several years of training before they become qualified to design cosmetics formulations themselves. They are trained so that they can design formulas not by a process of logic but by heart, like craftsmen, chefs, or carpenters. This kind of training seems a terrible waste of labor and time. To address this issue and allow young scientists to design novel cosmetics formulations, effectively bringing greater diversity of innovation to the industry, this book provides a key set of skills and the knowledge necessary for such pursuits. The volume provides the comprehensive knowledge and instruction necessary for researchers to design and create cosmetics products. The book 's chapters cover a comprehensive list of topics, which include, among others, the basics of cosmetics, such as the raw materials of cosmetics and their application; practical techniques and technologies for designing and manufacturing cosmetics, as well as theoretical knowledge; emulsification; sensory evaluations of cosmetic ingredients; and how to create products such as

soap-based cleansers, shampoos, conditioners, creams, and others. The potential for innovation is great in Japan's cosmetics industry. This book expresses the hope that the high level of dedicated research continues and proliferates, especially among those who are innovators at heart.

Tree or Three? Cisco Press

The twelfth-century French poet Chr é tien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chr é tien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and

sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.
