The Black Student's Pathway to Graduate Study and Beyond American Library Association

The 2012 One Book Toronto title Shortlisted for the Toronto Book Award A girl faints in the Toronto subway. Her friends are taken to the hospital with unexplained rashes; they complain about a funny smell in the subway. Swarms of police arrive, and then the hazmat team. Panic ripples through the city, and words like poisoning and terrorism become airborne. Soon, people are collapsing all over the city in subways and streetcars and malls. Alex was witness to this first episode. He's a photographer: of injuries and deaths, for his job at the hospital, and of life, in his evening explorations of the city. Alex's sight is failing, and as he rushes to capture his vision of Toronto on film, he encounters an old girlfriend - the one who shattered his heart in the eighties, while she was fighting for abortion rights and social justice and he was battling his body's chemical demons. But now Susie-Paul is in the midst of her own crisis: her schizophrenic brother is missing, and the streets of Toronto are more hostile than ever. Maggie Helwig, author of the critically lauded *Between Mountains*, has fashioned a novel not of bold actions but of small gestures, showing how easy and gentle is the slide into paranoia, and

how enormous and terrifying is the slide into love. 'The depth of her understanding ... fills this book with moving scenes and striking perceptions.' --The Globe and Mail (about *Between Mountains*) 'With pitch-perfect prose, Helwig shows huge compassion and an ability to make Toronto come alive.' --NOW 'stellar ... meticulous and poignant realism' --Montreal Gazette *The Father Figure* Taylor & Francis Printed in color. U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

A dozen essays from a July 1994 conference at the University of San Marino argue that a total shift to electronic information media would trigger wrenching social and cultural dislocations. Among their perspectives are the pragmatics of the new, farewell to the information age, toward meta-reading, hypertext and authorship, and the body of the text. They avoid the usual fetish arguments such as curling up in bed or leather bindings and pipes. Novelist Umberto Eco provides an afterward. No index

MLA Handbook IAP

At a crucial point in the twentieth century, as Nazi Germany prepared for war, negotiations between Britain, France, and the Soviet Union became the last chance to halt Hitler's aggression. Incredibly, the French and British governments dallied, talks failed, and in August 1939 the Soviet Union signed a nonaggression pact with Germany. Michael Carley's gripping account of these negotiations is not a pretty story. It is about the failures of appeasement and collective security in Europe. It is about moral depravity and blindness, about villains and cowards, and about heroes who stood against the intellectual and popular tides of their time. Some died for their beliefs, others labored in obscurity and have been nearly forgotten. In 1939 they sought to make the Grand Alliance that never was between France, Britain, and the Soviet Union. This story of their efforts is background to the wartime alliance created in 1941 without France but

with the United States in order to defeat a demonic enemy. 1939 is based upon Mr. Carley's longtime research on the period, including work in French, British, and newly opened Soviet archives. He challenges prevailing interpretations of the origins of World War II by situating 1939 at the end of the early cold war between the Soviet Union, France, and Britain, and by showing how anti-communism was the major cause of the failure to form an alliance against Hitler. 1939 was published on September 1, the sixtieth anniversary of the Nazi invasion of Poland and the start of the war.

The Chicago Manual of Style Modern Language Association

Moral universalism, or the idea that some system of ethics applies to all people regardless of race, color, nationality, religion, or culture, must have a plurality over which to range — a plurality of diverse persons, nations, jurisdictions, or localities over which morality asserts a universal authority. The contributors to Moral Universalism

and Pluralism, the latest volume in the NOMOS series, investigate the idea that, far from denying the existence of such pluralities, moral universalism presupposes it. At the same time, the search for universally valid principles of morality is deeply challenged by diversity. The fact of pluralism presses us to explore how universalist principles interact with ethical, political, and social particularisms. These important essays refuse the answer that particularisms should simply be made to conform to universal principles, as if morality were a mold into which the diverse matter of human society and culture could be pressed. Rather, the authors bring philosophical, legal and political perspectives to bear on the core questions: Which forms of pluralism are conceptually compatible with moral universalism, and which ones can be accommodated in a politically stable way? Can pluralism generate innovations in understandings of moral duty? How is convergence on the validity of legal and moral authority possible in circumstances of pluralism? As the contributors to the book demonstrate in a wide variety of ways, these normative, conceptual, and political questions deeply intertwine. Contributors: Kenneth Baynes, William A. Galston, Barbara Herman, F. M. Kamm, Benedict Kingsbury, Frank I. Michelman, William E. Scheuerman, Gopal Sreenivasan, Daniel Weinstock, and Robin West.
