The American Agricultural Press, 1819-1860 MLA Style Manual and Guide to Scholarly Publishing American agriculture changed radically between 1820 and 1870. In turning slowly from subsistence to commercial farming, farmers on the average doubled the portion of their production places on the market, and thereby

laid the foundations for today's highly productive agricultural industry. But the modern system was by no means inevitable. It evolved slowly through an intricate process in which innovative and imitative entrepreneurs were the key instruments.

**A Brief History** Harvard University Press  
The Kelmscott Chaucer is the most memorable and

beautiful edition of the complete works of the first great English poet. Next to The Gutenberg Bible, it is considered the outstanding typographic achievement of all time. There are 87 full-page illustrations by Sir Edward Burne-Jones, and the borders, decorations and initials are drawn by William Morris himself. Only 425 copies of this magnificent work were produced in 1896, and this beautiful monochrome facsimile, slightly smaller than the original, makes this glorious

book available to all. A fascinating Introduction by Nicholas Barker places the book and its importance in context. The main text is followed by a black and white facsimile of A Note by William Morris on his Aims in Founding the Kelmscott Press, together with a Short History of the Press by S C Cockerell.
