Bar Model Questions to Introduce to your class - The Bar ...

Question: Frank has 3 times as much money as Molly. After Frank spent £60 and Molly spent £10 they each had an equal amount of money left. How much money did Frank have at first?
Answer: As we can see from the bar model each of the larger green units must be worth £25 so while Molly started with £25, Frank had £75 at first.

Worded Ratio Questions to use with Bar Models - worksheet ...

Bar modelling and the CPA approach. The bar model method draws on the the Concrete, Pictorial, Abstract (CPA) approach — an essential maths mastery concept. The process begins with pupils exploring problems via concrete objects. Pupils then progress to drawing pictorial diagrams, and then to abstract algorithms and notations (such as the +, -, x and / symbols).
