This book presents the proceedings of the International Science and Technology Conference “ FarEastCon 2020, ” which took place on October 6 – 9, 2020, in Vladivostok, Russian Federation. The conference provided a platform for gathering expert opinions on projects and initiatives aimed at the implementation of far-sighted scientific research and development and allowed current theoretical and practical advances to be shared with the broader research community. Featuring selected papers from the conference, this book is of

interest to experts in various fields whose work involves developing innovative solutions and increasing the efficiency of economic activities.

Discover how history is composed of the captivating stories of interesting people with Hansen/Curtis'

VOYAGES IN WORLD HISTORY, 4E. Every chapter in this updated edition centers on the story of a different historic traveler while reinforcing a central theme -- the constant movement of people, goods and ideas throughout the world. The fascinating voyages of merchants, poets, rulers, explorers, soldiers, missionaries or scholars provide the framework for each chapter. New discussion questions and features prompt you to carefully consider and debate what you are reading. New inserts and special features

demonstrate how information connects across chapters, societies and time periods. You learn about people, places and events that are crucial to understanding the global context of world history. This edition is available as a complete volume or split into VOLUME 1: TO 1600 and VOLUME 2: SINCE 1500.

Jenna Fischer's Hollywood
journey began at the age of
22 when she moved to Los
Angeles from her
hometown of St. Louis.
With a theater degree in
hand, she was determined,
she was confident, she was
ready to work hard. So,
what could go wrong? Uh,
basically everything. The
path to being a professional
actor was so much more
vast and competitive than
she'd imagined. It would be
eight long years before she
landed her iconic role on
The Office, nearly a decade
of frustration, struggle,
rejection and doubt. If only

she'd had a handbook for the
aspiring actor. Or, better
yet, someone to show her
the way—an established
actor who could educate her
about the business, manage
her expectations, and
reassure her in those
moments of despair. Jenna
wants to be that person for
you. With amusing candor
and wit, Fischer spells out
the nuts and bolts of getting
established in the
profession, based on her
own memorable and
hilarious experiences. She
tells you how to get the
right headshot, what to look
for in representation, and
the importance of joining

forces with other like-minded artists and creating your own work—invaluable advice personally acquired from her many years of struggle. She provides helpful hints on how to be gutsy and take risks, the tricks to good auditioning and callbacks, and how not to fall for certain scams (auditions in a guy's apartment are probably not legit—or at least not for the kind of part you're looking for!). Her inspiring, helpful guidance feels like a trusted friend who's made the journey, and has now returned to walk beside you, pointing out the pitfalls

as you blaze your own path towards the life of a professional actor. Unemployment in Western Countries R. R. Bowker "One of the four-volume Project Earth Science series" --Introduction. “ Science has a battle
for hearts and minds on
its hands....How good it
feels to have Lisa
Randall ’ s unusual blend
of top flight science,
clarity, and charm on
our side. ” —Richard
Dawkins “ Dazzling
ideas....Read this book

today to understand the
science of tomorrow. ”
—Steven Pinker The
bestselling author of
Warped Passages, one
of Time magazine ’ s
“ 100 Most Influential
People in the World, ”
and one of Esquire ’ s
“ 75 Most Influential
People of the 21st
Century, ” Lisa Randall
gives us an exhilarating
overview of the latest
ideas in physics and
offers a rousing defense
of the role of science in
our lives. Featuring

fascinating insights into
our scientific future
born from the author ’ s
provocative
conversations with Nate
Silver, David Chang, and
Scott Derrickson,
Knocking on Heaven ’ s
Door is eminently
readable, one of the
most important popular
science books of this or
any year. It is a
necessary volume for
all who admire the work
of Stephen Hawking,
Michio Kaku, Brian
Greene, Simon Singh,

and Carl Sagan; for anyone curious about the workings and aims of the Large Hadron Collider, the biggest and most expensive machine ever built by mankind; for those who firmly believe in the importance of science and rational thought; and for anyone interested in how the Universe began...and how it might ultimately end.

The Washington Post Notable Non-Fiction of 2013 “ I can imagine few more enjoyable ways of thinking than to read this book. ” —Sarah Bakewell,

New York Times Book Review, front-page review Tackling the “ darkest question in all of philosophy ” with “ raffish erudition ” (Dwight Garner, New York Times), author Jim Holt explores the greatest metaphysical mystery of all: why is there something rather than nothing? This runaway bestseller, which has captured the imagination of critics and the public alike, traces our latest efforts to grasp the origins of the universe. Holt adopts the role of cosmological detective, traveling the globe to interview a host of

celebrated scientists, philosophers, and writers, “ testing the contentions of one against the theories of the other ” (Jeremy Bernstein, Wall Street Journal). As he interrogates his list of ontological culprits, the brilliant yet slyly humorous Holt contends that we might have been too narrow in limiting our suspects to God versus the Big Bang. This “ deft and consuming ” (David Ulin, Los Angeles Times) narrative humanizes the profound questions of meaning and existence it confronts.
