Power Seeds and Magic Minutes: the route to inner space. The Ecology of the Soul: A Manual of Peace, Power and Personal Growth for Real People in the Real World explains the seven powers of our own inner ecosystem, the Ecology of the Soul, and how to revive them to regain our natural, true state of peace, power and well-being. When the Ecology of the Soul is in balance, we live and thrive in this world, and create the new one, with grace, harmony and beauty. Each one of the seven powers, Nature, Creativity, Endurance, Love, Communication, Focus and Connection, generates seven separate meditations, which in turn create 'Power Seeds' of thought and mental habit. Plant one a day, and in a 'Magic Minute' , 60 powerful seconds of daily, active meditation, you achieve the balance, power and peace of Soul Consciousness. Warm, accessible, even humorous, the book acknowledges that we are all human and not everyone is able or willing to aim for the highest path of enlightenment. It gives practical

methods by which anyone, at whatever level of commitment, can benefit.

Universal education through schooling is not feasible. It would be no more feasible if it were attempted by means of alternative institutions built on the style of present schools. Neither new attitudes of teachers toward their pupil nor the proliferation of educational hardware or software (in classroom or bedroom), nor finally the attempt to expand the pedagogue's responsibility until it engulfs his pupil's lifetimes will deliver universal education. The current search for new educational funnels must be reversed into the search for their institutional inverse: educational webs which heighten the opportunity for each one to transform each moment of his living into one of learning, sharing, and caring. We hope to contribute concepts needed by those who conduct such counterfoil research on education - and also to those who seek

alternatives to other established service industries. Ivan Illich was born in Vienna in 1926. He studied theology and philosophy at the Gregorian University in Rome and obtained a PhD in history at the University of Salzburg. He came to the United States in 1951, where he served as assistant pastor in an Irish-Puerto Rican parish in New York. From 1956 to 1960 he was assigned as vice rector to the Catholic University of Puerto Rico, where he organized an intensive training center for American priests in Latin American culture. Illich was a co-founder of the widely known and controversial Center for Intercultural Documentation (CIDOC) in Cuernavaca, Mexico, and since 1964 he has directed research seminars on "Institutional Alternatives in a Technological Society," with special focus on Latin America.
