The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

**Rendezvous with Oblivion** Annie's Wholesale  
From the acclaimed author of Listen, Liberal and What's the Matter with Kansas, a scathing collection of his incisive commentary on our cruel times—perfect for this political moment What does a middle-class democracy look like when it comes apart? When, after forty years of economic triumph, America's winners persuade themselves that they owe nothing to the rest of the country? With his sharp eye for detail, Thomas Frank takes us on a wide-ranging tour through present-day America, showing us a society in the late stages of disintegration and describing the worlds of both the winners and the losers—the sprawling mansion districts as well as the lives of fast-food workers. Rendezvous with Oblivion is a collection of interlocking essays examining how inequality has manifested itself in our cities, in our jobs, in the way we travel—and of course in our politics, where in 2016, millions of anxious ordinary people rallied to the presidential campaign of a billionaire who meant them no good. These accounts of folly and exploitation are here brought together in a single volume unified by Frank's distinctive voice, sardonic wit, and anti-orthodox perspective. They capture a society where every status signifier is hollow, where the allure of mobility is just another con game, and where rebellion too often yields nothing. For those who despair of the future of our country and of reason itself, Rendezvous with Oblivion is a booster shot of energy, reality, and moral outrage.

Stranger In My Heart is about the search for understanding oneself, answering the question “Who am I?” by seeking to understand the currents that sweep down the generations, eddy through one's own persona and continue on – palpable but often unrecognised. My father fought at the Battle of Hong Kong in December 1941, was taken prisoner by the Japanese and then escaped in February 1942, making his way across 1200 miles of inhospitable country to reach China's wartime capital at Chongqing. Seventy years later I retraced his steps in an effort to understand a man who had died when I was 18, leaving a lot of unanswered questions behind. My book is the quest that I undertook to explore my father's life, in the context of the Pacific War and our relationship with China. A picture of a man of the greatest generation slowly unfolds, a leader, a 20th Century Great, but a distant father. As I delve into his story and research the unfamiliar territory of China in the Second World War, the mission to get to know the stranger I called ‘Dad’ resolves into a mission to understand how my own character was formed. As I travel across China, the traits I received from my father gradually emerge from their camouflage. The strands of the story are woven together in a flowing triple helix, with biography, travelogue and memoir punctuated with musings on context and meaning.
