A new account of modern Iraqi politics that overturns the conventional wisdom about its sectarian divisions. How did Iraq become one of the most repressive dictatorships of the late twentieth century? The conventional wisdom about Iraq's modern political history is that the country was doomed by its diverse

social fabric. But in *State of Repression*, Lisa Blaydes challenges this belief by showing that the country's breakdown was far from inevitable. At the same time, she offers a new way of understanding the behavior of other authoritarian regimes and their populations. Drawing on archival material captured from the headquarters of Saddam Hussein's ruling Ba'th Party in the wake of the 2003 US invasion, Blaydes illuminates the complexities of political life in Iraq, including why certain Iraqis chose to collaborate with the regime while others worked to undermine it. She demonstrates that, despite the Ba'thist regime's pretensions to political hegemony, its frequent reliance on collective punishment of various groups reinforced and cemented identity divisions. At the same time, a series of costly external shocks to the economy—resulting from fluctuations in oil prices and Iraq's war with Iran—weakened the capacity of the regime to monitor, co-opt, coerce, and control factions of Iraqi society. In addition to calling into question the common story of modern Iraqi politics, *State of Repression* offers a new explanation of why and how dictators repress their people in ways that can inadvertently strengthen regime opponents.

The study of Islamic philosophy has entered a new and exciting phase in the last few years. Both the received canon of Islamic philosophers and the narrative of the course of Islamic philosophy are in the process of being radically questioned and revised. Most twentieth-century Western scholarship on Arabic or Islamic philosophy has focused on the period from the ninth century to the twelfth. It is a measure of the transformation that is currently underway in the field that, unlike other reference works, the *Oxford Handbook* has striven to give roughly equal weight to every century, from the ninth to the twentieth. The *Handbook* is also unique in that its 30 chapters are work-centered rather than person- or theme-centered, in particular taking advantage of recent new editions and translations that have renewed interest and debate around the Islamic philosophical canon. The *Oxford Handbook of Islamic Philosophy* gives both the advanced student and active scholar in Islamic philosophy, theology, and intellectual history, a strong sense of what a work in Islamic philosophy looks like and a deep view of the issues, concepts, and arguments that are at stake. Most importantly, it provides an up-to-date portrait of contemporary scholarship on Islamic philosophy.

In this lecture, Dr. Umer Chapra has explained both the subject matter of Islamic economics as

well as its methodology in his usual masterly fashion. He has also presented a comparative perspective for solving the eternal economic problem: He has explained how the Islamic economics paradigm deals with this problem and allocates the scarce resources among their alternative uses in such a way that human well-being is maximized without sacrificing social objectives.

Principles of Islamic Jurisprudence is one of the best-known textbooks written by the late Ayatullah Sayyid Muhammad Baqir al-Sadr (1934-1980). The current volume, the first in a three-volume series, is written in plain language to introduce beginners to the science of the principles of Islamic jurisprudence (usul). Originally entitled *Durus fi Ilm al-Usul* (Discourses on the Science of the Principles of Jurisprudence), but normally known as *Halaqat al-Usul* (Discourses on the Principles of Jurisprudence), the book was a revolutionary attempt at innovative and systematic presentation of the principles of Islamic jurisprudence. In the current volume, the late Ayatullah al-Sadr expounds on the discipline of usul and responds to the latest debates and challenges. It was no wonder that following its publication this work replaced other standard textbooks which had hitherto been used to teach the principles of jurisprudence.

Our Philosophy Oxford University Press, USA

In a new edition of their book on the economic development of the Middle East and North Africa, Clement Henry and Robert Springborg reflect on what has happened to the region's economy since 2001. How have the various countries in the Middle East responded to the challenges of globalization and to the rise of political Islam, and what changes, for better or for worse, have occurred? Utilizing the country categories they applied in the previous book and further elaborating the significance of the structural power of capital and Islamic finance, they demonstrate how over the past decade the monarchies (as exemplified by Jordan, Morocco, and those of the Gulf Cooperation Council) and the conditional democracies (Israel, Turkey, and Lebanon) continue to do better than the military dictatorships or "bullies" (Egypt, Tunisia, and now Iran) and "the bunker states" (Algeria, Iraq, Libya, Sudan, Syria, and Yemen).

Handbook of Contemporary Islam and Muslim Lives Oxford University Press

This is a comprehensive handbook which for the first time provides a general yet detailed discussion of contemporary Islam and various aspects of Muslim lives. It offers a much needed tool for an introduction to the world of contemporary Muslim life and debate, and a link of continuity between the Muslim world and Muslims living and born in the West. The reader gains access to articles by leading scholars who observe phenomena in a post-9/11 context and from a global viewpoint. The topics have been carefully selected to provide the reader with both the necessary general view that a good handbook must offer while presenting details and information, as well as ethnographic examples, to inspire further research and interest. Indeed, each chapter will offer topical reading suggestions from which one can expand the material discussed in the chapter. The approach of the handbook is mainly social-anthropological, but attention is given to other disciplines like history, geography, political studies, as well as gender studies and cultural studies.

Until recently, the study of early Shi'i Islam has been one of the most neglected area in modern Islamic scholarship, and the few works that have been published are concerned with the historical

rather than the intellectual and doctrinal genesis of Shi'ism.

The Sunni saint cult and shrine of Ahmad-i Jam has endured for 900 years. The shrine and its Sufi shaykhs secured patronage from Mongols, Kartids, Tamerlane, and Timurids. The cult and shrine-complex started sliding into decline when Iran's shahs took the Shi'i path in 1501, but are today enjoying a renaissance under the (Shi'i) Islamic Republic of Iran. The shrine's eclectic architectural ensemble has been renovated with private and public funds, and expertise from Iran's Cultural Heritage Organization. Two seminaries (madrasa) that teach Sunni curricula to males and females were added. Sunni and Shi'i pilgrims visit to venerate their saint. Jami mystics still practice 'irfan ('gnosticism'). Analyzed are Ahmad-i Jam's biography and hagiography; marketing to sultans of Ahmad as the 'Guardian of Kings'; history and politics of the shrine's catchment area; acquisition of patronage by shrine and shaykhs; Sufi doctrines and practices of Jami mystics, including its Timurid-era Naqshbandi Sufis.

The Vanished Imam Oxford University Press

The Sunni-Shi'a schism is often framed as a dispute over the identity of the successor to Muhammad. In reality, however, this fracture only materialized a century later in the important southern Iraqi city of Kufa (present-day Najaf). This book explores the birth and development of Shi'i identity. Through a critical analysis of legal texts, whose provenance has only recently been confirmed, the study shows how the early Shi'a carved out independent religious and social identities through specific ritual practices and within separate sacred spaces. In this way, the book addresses two seminal controversies in the study of early Islam, namely the dating of Kufan Shi'i identity and the means by which the Shi'a differentiated themselves from mainstream Kufan society. This is an important, original and path-breaking book that marks a significant development in the study of early Islamic society.
