Saddam's Iraq LAP Lambert Academic Publishing

Distribution of wealth and income is one of the most important topics concerning the economic life of man, and yet the most controversial. Kabuye, in this comparative study, has critically analyzed the views of Sayyid Qutb, Muhammad Baqir al-Sadr, John Rawls, and Robert Nozick on distributive justive. The work is a good reference material for all those who want to learn about the distribution of wealth and income in the writings of these four scholars.

political concepts about man,

society and the state are introduced, his interpretation of the historical process is scrutinized, and his political program in ending social contradictions is examined. Sadr believes that the only solution to man's social and economic problems is through the establishment of an Islamic political system. In order for man to live in harmony and peace in his communal setting he must make God's last revelation, i.e., Islam, the supreme laws of the society, and thus the religious leaders (Prophets, Imams, or jurists) are the only legitimate authority.

Lessons in Islamic Jurisprudence A TRIBUTE TO THE SADR MARTYRS

This book links sectarianism in Iraq to the failure of the modern nation-state to resolve tensions between sectarian identities and concepts of unified statehood and uniform citizenry. After a theoretical excursus that recasts the notion of primordial identity as a socially constructed reality, the author sets out to explain the persistence of sectarian affiliations in Iraq since its creation following the dismemberment of the Ottoman Empire. Despite the adoption of homogenizing state policies, the uneven sectarian composition of the ruling elites nurtured feelings of political exclusion among marginalized sectarian groups, the Shicites before 2003 and the Sunnis in the post-2003 period. The book then examines how communal discourses in the educational curriculum provoked

masked forms of resistance that sharpened sectarian consciousness. Tracing how the anti-Persian streak in the nation-state's Pan-Arab ideology, which camouflaged anti-Shicite, undermined Iraq's national integration project, Sectarianism in Iraq delves into the country's slide from a totalizing Pan-Arab ideology in the pre-2003 period toward the atomistic impulse of the federalist debate in the post-2003 period. Employing extensive fieldwork, this book sheds light on the dynamics of political life in post-Saddam Iraq and is essential reading for Iraqi and Middle East specialists, as well as those interested in understanding the current heightening of sectarian Sunni-Shicite tensions in the Middle East.

[Trends of History In Qur'an](#) Oneworld Publications

"From the best-selling author of Republic of Fear, a gritty, unflinching, haunting novel about Iraqi failure in the wake of the 2003 American war. Told from the perspective of a Shi'ite militiaman whose participation in the execution of Saddam Hussein changes his life in ways he could not anticipate, the novel examines the birth of sectarian politics out of a legacy of betrayal and victimhood. A nameless narrator stumbles upon a corpse on the day of the fall of Saddam Hussein. Swept up in the tumultuous politics of

the American occupation, he is taken on a journey that concludes with the discovery of what happened to his father who disappeared in the tyrant's Gulag in 1991. His questions about his father, like those surrounding the mysterious corpse outside his house, were ignored by his mother, and by his uncle, in whose house he was raised. But he is older now, and a fighter in his uncle's Army of the Awaited One, which is leading an insurrection against the occupation. Clues accumulate: a letter surreptitiously delivered to his mother during his father's imprisonment; stories told by his dying grandfather. Not until the last hour before the tyrant's execution, is the narrator given the final piece of the puzzle. It comes from Saddam Hussein himself. It is a story about loyalty and betrayal; victims turned victimizers; secrecy and loss. And about identity--the haste with which it is cobbled together, or undone, always at terrible cost. It is a story that will stay with readers long after they finish the final page."--

Patriotic Ayatollahs Springer

Principles of Islamic Jurisprudence is one of the best-known textbooks written by the late Ayatullah Sayyid Muhammad Baqir al-Sadr (1934-1980). The current volume, the first in a three-volume series, is written in plain language to introduce beginners to the science of the principles of Islamic jurisprudence (usul). Originally entitled

Durus fi ?Ilm al-Usul (Discourses on the Science of the Principles of Jurisprudence), but normally known as Halaqat al-Usul (Discourses on the Principles of Jurisprudence), the book was a revolutionary attempt at innovative and systematic presentation of the principles of Islamic jurisprudence. In the current volume, the late Ayatullah al-Sadr expounds on the discipline of usul and responds to the latest debates and challenges. It was no wonder that following its publication this work replaced other standard textbooks which had hitherto been used to teach the principles of jurisprudence.

Our Economics (Iqtisaduna) Lulu Press, Inc
The most authoritative anthology of Islamist texts This anthology of key primary texts provides an unmatched introduction to Islamist political thought from the early twentieth century to the present, and serves as an invaluable guide through the storm of polemic, fear, and confusion that swirls around Islamism today. Roxanne Euben and Muhammad Qasim Zaman gather a broad selection of texts from influential Islamist thinkers and place these figures and their writings in their multifaceted political and historical contexts. The selections presented here in English translation include writings of Ayatollah Khomeini, Usama bin Laden, Muslim Brotherhood founder Hasan al-Banna, and Moroccan Islamist leader Nadia Yassine, as well as the Hamas charter, an interview with a Taliban commander, and the final testament of 9/11 hijacker Muhammad Ata. Illuminating the content and political appeal of Islamist thought, this anthology brings into sharp relief the commonalities in Islamist arguments about gender, democracy, and

violence, but it also reveals significant political and theological disagreements among thinkers too often grouped together and dismissed as extremists or terrorists. No other anthology better illustrates the diversity of Islamist thought, the complexity of its intellectual and political contexts, or the variety of ways in which it relates to other intellectual and religious trends in the contemporary Muslim world.

Distributive Justice Routledge
Patriotic Ayatollahs explores the contributions of senior clerics in state and nation-building after the 2003 Iraq war. Caroleen Sayej suggests that the four so-called Grand Ayatollahs, the highest-ranking clerics of Iraqi Shiism, took on a new and unexpected political role after the fall of Saddam Hussein. Drawing on previously unexamined Arabic-language fatwas, speeches, and communiqués of Iraq's four grand ayatollahs, this book analyzes how their new pronouncements and narratives shaped public debates after 2003. Sayej argues that, contrary to standard narratives about religious actors, the Grand Ayatollahs were among the most progressive voices in the new Iraqi nation. She traces the transformative position of Ayatollah Sistani as the "guardian of democracy" after 2003.

Sistani was, in particular, instrumental in derailing American plans that would have excluded Iraqis from the state-building process—a remarkable story in which an octogenarian cleric takes on the United States over the meaning of democracy. Patriotic Ayatollahs' counter-conventional argument about the ayatollahs' vision of a nonsectarian nation is neatly realized. Through her deep knowledge and long-term engagement with Iraqi politics, Sayej advances our understanding of how the post-Saddam Iraqi nation was built.

The Ayatollahs and Democracy in Iraq
Lulu Press, Inc

These case studies link genealogical knowledge to particular circumstances in which it was created, circulated and promoted. They stress the malleability of kinship and memory, and the interests this malleability serves. From the Prophet's family tree to the present, ideas about kinship and descent have shaped communal and national identities in Muslim societies. So an understanding of genealogy is vital to our understanding of Muslim societies, particularly with regard to the generation, preservation and

manipulation of genealogical knowledge.
