In News from Heaven, Jennifer Haigh—bestselling author of Faith and The Condition—returns to the territory of her acclaimed novel Baker Towers with a collection of short stories set in and around the fictionalized coal-mining town of Bakerton, Pennsylvania. Exploring themes of restlessness, regret, redemption and acceptance, Jennifer Haigh depicts men and women of different generations shaped by dreams and haunted by disappointments. Janet Maslin of the New York Times has called Haigh's Bakerton stories "utterly, entrancingly alive on the page," comparable to Richard Russo's Empire Falls.

If you want to understand how our world works, the periodic table holds the answers. When the seventh row of the periodic table of elements was completed in June 2016 with the addition of four final elements—nihonium, moscovium, tennessine, and oganesson—we at last could identify all the ingredients necessary to construct our world. In **Elemental**, chemist and science educator

Tim James provides an informative, entertaining, and quirkily illustrated guide to the table that shows clearly how this abstract and seemingly jumbled graphic is relevant to our day-to-day lives. James tells the story of the periodic table from its ancient Greek roots, when you could count the number of elements humans were aware of on one hand, to the modern alchemists of the twentieth and twenty-first centuries who have used nuclear chemistry and physics to generate new elements and complete the periodic table. In addition to this, he answers questions such as: What is the chemical symbol for a human? What would happen if all of the elements were mixed together? Which liquid can teleport through walls? Why is the medieval dream of transmuting lead into gold now a reality? Whether you're studying the periodic table for the first time or are simply interested in the fundamental building blocks of the universe—from the core of the sun to the networks in your brain—**Elemental** is the perfect guide.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the

simpler life of New Testament times.

Amy Buswell and Bruce Lansky's Giggle Poetry Reading Lessons turns struggling readers into happy readers — For Grades 2 – 5. Many struggling readers are embarrassed to read aloud. They are often intimidated or bored by texts that conventional programs require them to practice. So, instead of catching up, they fall further behind. Currently 67% of American fourth graders can't read grade-level text. Reading specialist Amy Buswell has spent eight years looking for remediation methods that work. "What is needed," Buswell explains, "is a program that improves the motivation of struggling readers, because that accounts for 90% of the problem." Four years ago, Buswell came up with a brainstorm. She knew her best readers enjoyed reading Bruce Lansky's poetry books for pleasure. The more poems they read, the better the reading got. Why not use Lansky's kid-tested poems as texts struggling readers could practice on to improve their reading—using six research-based strategies: choral reading, echo reading, paired reading, repeated reading, sustained silent reading and "say it like the character" reading. — This book is the result of that brainstorm and the resulting collaboration between Buswell and Lansky. It gives teachers and parents everything they need to help children improve their reading: -35 kid-tested poems by Bruce Lansky -35 customized reading lessons by Amy Buswell -35 off-the-wall illustrations by Stephen Carpenter -35 sets of zany performance tips by Bruce Lansky ...all of which is designed to make the process of reading improvement more like fun than work. — What Amy Buswell and Bruce Lansky have created is the most entertaining fluency intervention ever. That's why it is so successful at overcoming negative attitudes to improve reading skills and scores. Ninety-five percent of participating students made significant improvement in their fluency (reading rate). And average reading scores on the Florida Comprehensive Assessment Test (FCAT) for Buswell's school raised her school's rating to an A for the first time. In 2011, Buswell's school achieved one of the highest-percentage reading gains in the county. — There's no reason parents can't get in on the fun,

too. Parents will enjoy Lansky's funny poems and Stephen Carpenter's delightful illustrations as much as their children. By reading the poems with their children and encouraging their children to try some of Lansky's entertaining performance tips (by adding gestures, sound effects, props and finding additional readers: be they friends, family or neighbors), they can dramatically speed up their child's reading progress (and have lots of fun in the process.)
