Eavesdropping in the Novel from Austen to Proust investigates human curiosity and its representation in eavesdropping scenes in nineteenth-century English and French novels. Ann Gaylin argues that eavesdropping dramatizes a primal human urge to know and offers a paradigm of narrative transmission and reception of information among characters, narrators and readers. Gaylin sheds light on the social and psychological effects of the nineteenth-century rise of information technology and accelerated flow of information, as manifested in the anxieties about - and delight in - displays of private life and its secrets. Analysing eavesdropping in Austen, Balzac, Collins, Dickens and Proust, Gaylin demonstrates the flexibility of the scene to produce narrative complication or resolution; to foreground questions of gender and narrative agency; to place the debates of privacy and publicity within the literal and metaphoric spaces of the nineteenth-century novel. This 2003 study will be of interest to scholars of nineteenth-century English and European literature.

The third title in the I Am City series stops in New York! Cities have always been important protagonists in our history, but now, more than ever, they are taking the leading role in our developing culture. In the series I am the City , the most prominent conurbations in the world are given a chance to reassert their unique personalities and individuality, showing us, via a pictorial tour and compelling anecdotes, the things that mark them out in the face of the encroaching tide of homogeneity. The third title of the I Am the City series alights in New York. Stunning colour illustrations by Carlo Stanga lead the reader into a virtual tour of the city that narrates and reveals landmarks, tales, lifestyle, architecture as well as secrets. From the Chrysler building to the bagel, this is a unique, fully comprehensive illustrated journey of the Big Apple.

From the brilliant mind of the creator and star of I May Destroy You and Chewing Gum comes a passionate declaration against fitting in. Michaela Coel's MacTaggart Lecture touched a lot of people with her striking revelations about race, class and gender. But in the end, the person most impacted was Coel herself. Building on this speech, Misfits immerses readers in her deeply personal vision through powerful allegory and anecdotes - from her East London upbringing to her discovery of theatre and love for storytelling. With inspiring insight and wit, she tells of her reckoning with trauma and metamorphosis into a champion for herself, inclusivity and radical honesty, and in telling her journey invites us to reflect on our own. By embracing our differences, she says, we can transform our lives. An artist to her core, Coel holds up the path of the creative as an emblem of our need to regard one another with care and respect - and transparency. Misfits is a triumphant call for honesty, empathy and inclusion. This timely, necessary book is a rousing coming-to-power manifesto dedicated to anyone who has ever worried about fitting in.

Solid waste management is currently a major issue worldwide with numerous areas reaching critical levels. Many developing countries and countries in transition still miss basic waste management infrastructure and awareness. It is here that many of the solid waste management problems and challenges are currently being faced. As such, waste-to-energy (WTE) consists of a proven and continuously developing spectrum and range of technologies in a number of (mostly) developed countries. However, it's integration in developing countries and systems in transition is often faced with scepticism and a complex set of barriers which are quite unique and differ greatly from those where WTE has been validated and applied over the years. Waste-to-Energy: Opportunities and Challenges for Developing and Transition Economies will address this issue both theoretically and using

concrete examples, including: · contributions from numerous scholars and practitioners in the field, · useful lessons and rules of thumb, · both successful and failed cases, and · real-life examples and developments. Waste-to-Energy approaches this dynamic aspect of environmental engineering and management in a methodical and detailed manner making it an important resource for SWM planners and facility operators as well as undergraduate and post graduate students and researchers.

Undated Two-Year Monthly Planner

A captivating new thriller in the Wakeland detective series that explores the depths of Vancouver’s criminal underworld. Caught between the grimy and glittering sides of Vancouver’s streets, private investigator Dave Wakeland tries to keep his head down at the elite security firm he owns with partner Jeff Chen. But when masked men and women storm an ordinary-looking office building in Chinatown, leaving a trail of carnage, Wakeland finds himself caught up in a mystery that won’t let him go, as hard as he tries to elude it. The police have a vested interest in finding the shooters, and so does the leader of the Exiles motorcycle gang. Both want Wakeland’s help. The deeper he investigates, the more connections he uncovers: to a reclusive millionaire with ties to organized crime, an international security company with a sinister reputation, and a high-ranking police officer who seems to have a personal connection to the case. When the shooters themselves start turning up dead, Wakeland realizes the only way to guarantee his own safety, and that of the people he loves, is by finding out who hired the shooters and why. What Wakeland uncovers are secrets no one wants known—a botched undercover operation, an ambitious gangster and a double-crossing killer who used the shooting to cover up another crime. With a setup like this, anything can go wrong, and does. Skill and luck are needed for Wakeland and Chen to emerge with the killers, the money and their own lives.
