Argumentation is often understood as a coherent set of Western theories, birthed in Athens and developing throughout the Roman period, the Middle Ages, the Enlightenment and Renaissance, and into the present century. Ideas have been nuanced, developed, and revised, but still the outline of argumentation theory has been recognizable for centuries, or so it has seemed to Western scholars. The 2019 Alta Conference on Argumentation (co-sponsored by the National Communication Association and the American Forensic Association) aimed to question the generality of these intellectual traditions. This resulting collection of essays deals with the possibility of having local theories of argument – local to a particular time, a particular kind of issue, a particular place, or a particular culture. Many of the papers argue for reconsidering basic ideas about arguing to represent the uniqueness of some moment or location of discourse. Other scholars are more comfortable with the Western traditions, and find them congenial to the analysis of arguments that originate in discernibly distinct circumstances. The papers represent different methodologies, cover the experiences of different nations at different times, examine varying sorts of argumentative events (speeches, court decisions, food choices, and sound), explore particular personal identities and the issues highlighted by them, and have different overall orientations to doing argumentation scholarship. Considered together, the essays do not generate one simple conclusion, but they stimulate reflection about the particularity or generality of the experience of arguing, and therefore the scope of our theories.

It was just a work party, filled with kissing the well-dressed rear ends of clients and fake smiles. Until my boss accused me of something I didn't do. Until I got pissed, and just then there was this guy who was hot and flirting with me. Then there were his hands and the backseat of my car and a night of everything but you know what.I never expected to see him again. But suddenly Julian Dohring is everywhere. And I can't get over the endless tattoos that cover his arms, how he's apparently a recovering video game addict, and dresses like he's ready to walk down the red carpet at any moment.Ten years ago I made a pledge to stay away from alcohol and sex, and to never get too personal with anyone. It's gotten me this far. I'm twenty-seven, I have a career I've worked my heart and soul into, and more money than I could ever blow on shoes and the finer things in life. My attitude and pride have always been enough to keep any man from getting too interested. Until Julian...who claims I can't dance, and has the nerve to call me a “ peach. ” I'm Sage McCain, and needless to say, Julian has my attention.

Born in Italy, University of Chicago economist Luigi Zingales witnessed firsthand the consequences of high inflation and unemployment—paired with rampant nepotism and cronyism—on a country's economy. This experience profoundly shaped his professional interests, and in 1988 he arrived in the United States, armed with a political passion and the belief that economists should not merely interpret the world,

but should change it for the better. In *A Capitalism for the People*, Zingales makes a forceful, philosophical, and at times personal argument that the roots of American capitalism are dying, and that the result is a drift toward the more corrupt systems found throughout Europe and much of the rest of the world. American capitalism, according to Zingales, grew in a unique incubator that provided it with a distinct flavor of competitiveness, a meritocratic nature that fostered trust in markets and a faith in mobility. Lately, however, that trust has been eroded by a betrayal of our pro-business elites, whose lobbying has come to dictate the market rather than be subject to it, and this betrayal has taken place with the complicity of our intellectual class. Because of this trend, much of the country is questioning—often with great anger—whether the system that has for so long buoyed their hopes has now betrayed them once and for all. What we are left with is either anti-market pitchfork populism or pro-business technocratic insularity. Neither of these options presents a way to preserve what the author calls “the lighthouse” of American capitalism. Zingales argues that the way forward is pro-market populism, a fostering of truly free and open competition for the good of the people—not for the good of big business. Drawing on the historical record of American populism at the turn of the twentieth century, Zingales illustrates how our current circumstances aren't all that different. People in the middle and at the bottom are getting squeezed, while people at the top are only growing richer. The solutions now, as then, are reforms to economic policy that level the playing field. Reforms that may be anti-business (specifically anti-big business), but are squarely pro-market. The question is whether we can once again muster the courage to confront the powers that be.

It was another day at the ranch, training horses and working fifteen hour days. And then the last person I ever expected showed up. Lake McCain: a Marine, tall, ripped—and the best friend of my dead fiancé . Cal died to save Lake, and now Lake claims that he carries a debt to me that he can never repay. I wanted to brush him off. But then my mom, the manager of the ranch, went and hired him. We spend hours working together with the horses. Lake doesn't say much. He's layered and dark and he tries to seem shallow and simple. But he isn't. There are things under his surface that matter. He works, quiet and strong, and never once lets me down. Until he confesses that he may be falling in love with me. I can't deny that there is something between us. But a relationship? I just can't. I've used up all my chances at love. My past relationships have ended in death or disaster, and now I have to live with all of that. I'm Riley James, and there are depths to Lake—depths to myself—that I don't think I'll ever fully understand. I've worked my tail off to get everything I could ever want. At twenty-seven, I have a career I love, more money than I could ever blow on shoes and the finer things in life, and a beautiful view over the water. My pride and attitude have always been enough to keep any man from getting too interested. Until Julian. He was crashing my work party, but his designer suit and custom shoes suggested he wasn't just looking for a free meal. He's being oddly aloof, but for the first time in a long time, a man has captured my interest. But it's been years since I've let anyone get too close. I've carefully built this wall around myself for a reason. I've been hurt before. But what if it's worth the risk? Despite Archer King's prophesy, I'm moving forward with my life. I'm not about to let the ravings of a murderous psychopath dictate my future. Things are almost perfect. Almost. In 1961, young, black, eighth-grade dropout Wilbert Rideau despaired of his small-town future in the segregated deep south of America. He set out to rob the local bank and after a bungled robbery he killed the bank teller, a fifty-year-old white female. He was arrested and gave a full confession. When we meet Rideau he has just been sentenced to death row, from where he embarks on an extraordinary journey. He is imprisoned at Angola, the most violent prison in America, where brutality, sexual slavery and local politics confine prisoners in ways that bars alone cannot. Yet Rideau breaks through all this and finds hope and meaning, becoming editor of the prison magazine, going on to win national journalism awards. Full of gritty realism and potent in its evocation of a life condemned, Rideau goes far beyond the traditional prison memoir and reveals an emotionally wrought and magical conclusion to his forty-four years in prison.

It was one of the scariest things I'd ever done: walking out on stage, opening my mouth, and singing for everyone at that wedding to hear. Because I'm awkward. I always mess things up, I forget my lyrics, and guaranteed, I'll do something weird. I'm a nerd, a lab assistant. Not a pop star. But that night, I met someone who changed my life forever. Kale McCain. World-famous model, ladies' man, not a flaw to him. And the most unexpected thing happened—sparks flew. Everything about Kale is smooth: his attitude, his voice, his body... He is my polar opposite. But somehow, him—me, we work. Then there was the video he made. Us together, me singing, him grinning like I was the sun, moon, and stars. And my simple life exploded. Suddenly, the world has a new celebrity couple to obsess about. We've barely started a relationship. Now there's all this pressure. When our once seemingly perfect life gets shaken, will we come out stronger, or will what everyone has been saying about us—that this is too quick, too serious, and that we're too young for this to be real—come to truth? I'm Whitney Ford, and from the second Kale McCain walked into my life, I knew it would never be the same.

Crackup Princeton University Press

"In 2016, a businessman so discredited that he could no longer get a casino license or borrow money from an American bank was elected President of the United States of America. How did this happen? It is easy to mock and ridicule Donald Trump as if he is the problem. In fact, he is a symptom of a much larger issue that has been bedeviling the GOP for nearly two decades: an intraparty crackup of massive proportions. By "crackup," I mean a breakdown of the fragile alliances between coalitions within a party that prevents its leaders from developing goals they can deliver on when they control the White House and majorities in the House and Senate. This introductory chapter explains why party crackups are inevitable in a federal system with national money and local primaries. But this is the first time -- for either party - that no group within the party could create a synthesis of old orthodoxies and new realities that altered the party's direction enough to build a new consensus"--

What I Didn't Say HarperCollins

With the aptly titled Bad Republican, Meghan McCain expresses how it is to feel like you no longer fit in with your political party. She tells of growing up the daughter of an American icon who shaped her life and details the heartbreaking final moments spent by his side. She recalls her (mis)adventures on the New York dating scene and brings us up to speed on meeting her now-husband. We hear her views on cancel culture and internet trolls as well as life backstage as the sole Republican at America's most-watched daytime talk show—and why she decided to leave. Revealingly, she relays the awkward phone call she received from Donald and Melania and where she thinks the Republican Party and the country go from here. And with surprising candor, she divulges why a miscarriage and the birth of her daughter have left her so fired up about women's rights—even if that puts her at odds with her party. Unsparingly honest, deeply relatable, and highly entertaining, Bad Republican is as personal as a story gets. It's a memoir imbued with an unmistakable maverick spirit.

Earning Her Iron Heart Keary Taylor Book, INC

Named a Best Book of 2017 by NPR and GQ Joining the ranks of the classics Please Kill Me, Our Band Could Be Your Life, and Can't Stop Won't Stop, an intriguing oral history of the post-9/11 decline of the old-guard music industry and rebirth of the New York rock scene, led by a group of iconoclastic rock bands. In the second half of the twentieth-century New York was the source of new sounds, including the Greenwich Village folk scene, punk and new wave, and hip-hop. But as the end of the millennium neared, cutting-edge bands began emerging from Seattle, Austin, and London, pushing New York further from the epicenter. The behemoth music industry, too, found itself in free fall, under siege from technology. Then 9/11/2001 plunged the country into a state of uncertainty and war—and a dozen New York City bands that had been honing their sound and style in relative obscurity suddenly became symbols of glamour for a young, web-savvy, forward-looking generation in need of an anthem. Meet Me in the Bathroom charts the transformation of the New York music scene in the first decade of the 2000s, the bands behind it—including The Strokes, The Yeah Yeah Yeahs, LCD Soundsystem, Interpol, and Vampire Weekend—and the cultural forces that shaped it, from the Internet to a booming real estate market that forced artists out of the Lower East Side to Williamsburg. Drawing on 200 original interviews with James Murphy, Julian Casablancas, Karen O, Ezra Koenig, and many others musicians, artists, journalists, bloggers, photographers, managers, music executives, groupies, models, movie stars, and DJs who lived through this explosive time, journalist Lizzy Goodman offers a fascinating portrait of a time and a place that gave birth to a new era in modern rock-and-roll.

Eve knew the stories of the Fall, of a time before she wandered into the colony of Eden, unable to recall anything but her name. She's seen the aftermath of the technology that infused human DNA with cybernetic matter, able to grow new organs and limbs, how it evolved out of control. The machine took over and the soul vanished. A world quickly losing its humanity isn't just a story to her though. At eighteen, this world is Eve's reality. In their Fallen world, love feels like a selfish luxury, but not understanding what it is makes it difficult to choose between West, who makes her feel alive but keeps too many secrets, and Avian, who has always been there for her, but is seven years her senior. The technology wants to spread and it won't stop until there is no new flesh to assimilate. With

only two percent of the human population left, mankind is on the brink of extinction. While fighting to keep Eden alive, Eve will discover that being human is about what you will do for those you love, not what your insides may be made of. And even if it gets you killed, love is always what separates them from the Fallen.
