*The Mortuary Monster* Little, Brown Books for Young Readers  
“A remarkable creation, a baroque opera of grief, laced with lines of haunting beauty and profundity.” —The Washington Post Now in paperback, the bold, genre-defying book that asked: What if Mary Shelley had not invented Frankenstein's monster at all but had met him when she was a girl of eight, sitting by her mother's grave, and he came to her unbidden? In a riveting mix of fact and poetic license, Laurie R. King gives us the "monster" in his own words: recalling how he was "made" and how Victor Frankenstein abandoned him; pondering the tragic tale of the Shelleys and the intertwining of his life with Mary's (whose fictionalized letters salt the narrative, along with those of her nineteenth-century intimates); taking notes on all aspects of human striving--from Gertrude Stein to robotics to the Northern explorers whose lonely quest mirrors his own--as he tries to understand the strange race that made yet shuns him, and to find his own freedom of mind.

Restoring Relations Through Stories Zonderkidz

Stone maps the force, vivacity, and stories within our most mundane matter, stone. For too long stone has served as an unexamined metaphor for the “really real”: blunt factuality, nature’s curt rebuke. Yet, medieval writers knew that stones drop with fire from the sky, emerge through the subterranean lovemaking of the elements, tumble along riverbeds from Eden, partner with the masons who build worlds with them. Such motion suggests an ecological enmeshment and an almost creaturely mineral life. Although geological time can leave us reeling, Jeffrey Jerome Cohen argues that stone’s endurance is also an invitation to apprehend the world in other than human terms. Never truly inert, stone poses a profound challenge to modernity’s disenchantments. Its agency undermines the human desire to be separate from the environment, a bifurcation that renders nature “out there,” a mere resource for recreation, consumption, and exploitation. Written with great verve and elegance, this pioneering work is notable not only for interweaving the medieval and the modern but also as a major contribution to ecotheory. Comprising chapters organized by concept — “Geophilia,” “Time,” “Force,” and “Soul” — Cohen seamlessly brings together a wide range of topics including stone’s potential to transport humans into nonanthropocentric scales of place and time, the “petrification” of certain cultures, the messages fossils bear, the architecture of Bordeaux and Montparnasse, Yucca Mountain and nuclear waste disposal, the ability of stone to communicate across millennia in structures like Stonehenge, and debates over whether stones reproduce and have souls. Showing that what is often assumed to be the most lifeless of substances is, in its own time, restless and forever in motion, Stone fittingly concludes by taking us to Iceland — a land that, writes the author, “reminds us that stone like water is alive, that stone like water is transient.”

At his London home, John Stone falls out of a window to his death. A financier and arms dealer, Stone was a man so wealthy that he was able to manipulate markets, industries, and indeed entire countries and continents. Did he jump, was he pushed, or was it merely a tragic accident? His alluring and enigmatic widow hires a young crime reporter to investigate.

The story moves backward in time—from London in 1909 to Paris in 1890 and finally to Venice in 1867—and the attempts to uncover the truth play out against the backdrop of the evolution of high-stakes international finance, Europe’s first great age of espionage, and the start of the twentieth century’s arms race. Stone’s Fall is a tale of love and frailty, as much as it is of high finance and skulduggery. The mixture, then, as now, is an often fatal combination.

Bron and Ray are a queer couple who enjoy their role as the fun weirdo aunties to Ray's niece, six-year-old Nessie. Their playdates are little oases of wildness, joy, and ease in all three of their lives, which ping-pong between familial tensions and deep-seeded personal stumbling blocks. As their emotional intimacy erodes, Ray and Bron isolate from each other and attempt to repair their broken family ties ? Ray with her overworked, resentful single-mother sister and Bron with her religious teenage sister who doesn't fully grasp the complexities of gender identity. Taking a leap of faith, each opens up and learns they have more in common with their siblings than they ever knew. At turns joyful and heartbreaking, Stone Fruit reveals through intimately naturalistic dialog and blue-hued watercolor how painful it can be to truly become vulnerable to your loved ones ? and how fulfilling it is to be finally understood for who you are. Lee Lai is one of the most exciting new voices to break into the comics medium and she has created one of the truly sophisticated graphic novel debuts in recent memory.

to Beaver's. Gonzalo grew up in the cemetery under the care of his monstrous parents and in the company of decaying corpses. As a result, he only desired one thing throughout his childhood: To be normal enough to join society. But despite his attempts at running away from his family, he has never been able to leave the mortuary. Now, as an adult, Gonzalo manages the cemetery. His family has died yet he is still unable to leave. Then, on the night of the annual Cadaver Tea party, something impossible happens--he impregnates the corpse Fiona. In an attempt to normalize the cemetery before his child's birth, Gonzalo begins to close all the coffins, forever locking the dead inside. Without the intercession of corpses like Henry, the voluntary babysitter of abused children, Lionel, the life-long explorer, Victoria, the world's first professional deep-sea water ski champion, and Vincent, Victoria's long-time lover and trainer, Gonzalo believes he and Fiona will be able to raise their child to join the rest of the world. But in the throes of terminal calcium deficiency, Fiona's bones deteriorate to dust immediately after she gives birth. Can Gonzalo make the young Frank, his now motherless, half-corpse son, normal enough for society? Can he raise his son without becoming like his own parents? Will Gonzalo become the Mortuary Monster he has spent his whole life trying to escape?

Restoring Relations Through Stories takes us through many landscapes, places, and sites. Renae Watchman introduces the book with an overview of stories that bring Tsé Bitʼaʼí, or Shiprock Peak, the sentinel located in what is currently the state of New Mexico, to life. The book then introduces the dynamic field of Indigenous film through a close analysis of two distinct Diné-directed feature-length films, and ends by introducing Dene literatures. While the Diné (those from the four sacred mountains in Dinétah in the southwestern United States) are not now politically and economically cohesive with the Dene (who are in Denendeh in Canada), they are ancestral and linguistic relatives. In this book, Watchman turns to literary and visual texts to explore how relations are restored through stories, showing how literary linkages from land-based stories affirm Diné and Dene kinship. She explores the power of story to forge ancestral and kinship ties between the Diné and Dene across time and space through re-storying of relations. \*A complex Diné worldview and philosophy that cannot be defined with one word in the English language. Hózh?? means to continually strive

for harmony, beauty, balance, peace, and happiness, but most importantly the Diné have a right to it.
