Esordi del colonialismo e azione della chiesa UC Biblioteca Geral 1
This third volume of essays by Peter Linehan deals with matters of perennial interest to all historians of medieval Church and State, and in particular to students of the history of medieval Spain and Portugal and of the papacy in the 12th and 13th centuries. Amongst those discussed and explored are the question of feudalism in the 11th and 12th century, the rise and fall of a royal capital, the city of León, the ritual of king-making, focusing on Castile and Portugal, the interplay of royal influence and papal authority, and the impact of the mendicant orders. A previously unpublished study provides a cautionary tale of a particular bishop in politics. Four essays are devoted to the investigation of individuals and issues central to the history of late 13th-century papal Rome, while two look at medieval and modern historiography.

This book investigates the Battle of Agincourt—which continues to be of immense national and international interest—as well as the wider conduct and organisation of war in the late Middle Ages. In England, Shakespeare’s Henry V ensured that the battle holds a place in the English national consciousness, and through the centuries that followed the story of Henry’s famous victory was used to galvanise English national spirit in times of war. In France, the immediate impact of the battle was that it helped to galvanise French national awareness in response to an external enemy. This book showcases new research into Agincourt and the wider issues of military recruitment, naval logistics, gunpowder and siege warfare, and the conduct of war. It also takes a wider European perspective on the events of 1415 by including research on Portuguese military organisation at the time of Agincourt. This book was originally published as a special issue of the Journal of Medieval History.

Mehr als 400 Jahre lang erlitten schwarzafrikanische Männer, Frauen und Kinder während des transatlantischen Sklavenhandels schlimmste Formen der Versklavung und Erniedrigung durch Katholiken und das westliche Christentum. Damals wie heute glaubte niemand an die tiefe Verwicklung der Kirche und des Papsttums in den schwarzafrikanischen Holocaust. Trotz jüngster Behauptungen des päpstlichen Officiums in Rom, wonach die Päpste jegliche Form von Sklaverei verurteilten, so auch im Falle der Versklavung von Schwarzafrikanern, verweisen neuere Studien innerhalb dieses Forschungsfeldes auf das Gegenteil. Die Kirche und die Päpste nahmen vielmehr zentrale Rollen in diesem schlimmsten Verbrechen gegen die Schwarzafrikaner seit Beginn der schriftlichen Dokumentation ein. Mithilfe zahlreicher päpstlicher Bullen aus den Geheimarchiven des Vatikans und einer Vielzahl an königlichen Dokumenten aus dem portugiesischen Nationalarchiv in Lissabon, strebt der vorliegende Band eine kritische und analytische Untersuchung dieses Aspekts des transatlantischen Sklavenhandels an, der über so viele Jahre von den westlichen Historikern und Gelehrten verschleiert wurde. For over 400 years, Black African men, women and children suffered the worst type of enslavement and humiliation from the hands of Catholics and other Western Christians during the transatlantic slave trade. Before now, no one could ever believe that the Popes of the Church were deeply involved in this Holocaust against Black African people. Despite the claims made by the hallowed papal office in Rome in recent years that the Popes condemned the enslavement of peoples wherever it existed including that of Black Africans, recent researches in these fields of study have proved the contrary to be true. The Church and her Popes were rather among the major “role players” in this worst crime against Black Africans in recorded history. With the help of a considerable number of papal Bulls from the Vatican Secret Archives and a great amount of Royal documents from the

Portuguese National Archives in Lisbon, the present book is aiming to undertake a critical and analytical inquiry of this aspect of the transatlantic slavery that has been kept in the dark for so many years by the Western historians and scholars. The results of this studious but fruitful academic inquiry are laid bare in this notable work of the 21st century. Pius Onyemechi Adiele is a Catholic priest of Ahiara Diocese Mbaise and an alumnus of Seat of Wisdom Seminary Owerri and Bigard Memorial Seminary Enugu in Nigeria. Royal women did much more to wield power besides marrying the king and producing the heir. Subverting the dichotomies of public/private and formal/informal that gender public authority as male and informal authority as female, this book examines royal women as agents of influence. With an expansive chronological and geographic scope—from ancient to early modern and covering Egypt, Great Britain, the Ottoman Empire, and Asia Minor—these essays trace patterns of influence often disguised by narrower studies of government studies and officials. Contributors highlight the theme of dynastic loyalty by focusing on the roles and actions of individual royal women, examining patterns within dynasties, and considering what factors generated loyalty and disloyalty to a dynasty or individual ruler. Contributors show that whether serving as the font of dynastic authority or playing informal roles of child-bearer, patron, or religious promoter, royal women have been central to the issue of dynastic loyalty throughout the ancient, medieval, and modern eras.
