Regency romance"
(Booklist)—about an ice-cold
business agreement that turns
into something far more
heated... The Earl of St. Merryn
needs a woman. His intentions
are purely practical—he simply
wants someone sensible and

suitably lovely to pose as his betrothed for a few weeks among polite society. He has his own agenda to pursue, and a false fiancée will keep the husband-hunters at bay while he goes about his business. The simplest solution is to hire a paid companion. After all, the sorry women who must accept such employment are sure to be grateful for any favor... When he encounters Miss Elenora Lodge, he believes his problem is solved. Her dowdy attire and pinned-up hair cannot hide her fine figure and the fire in her golden eyes. And her unfortunate circumstances—and secret dreams of a life onstage—make

the Earl's offer undeniably appealing. But St. Merryn is clearly hiding something, and things seem oddly amiss in his gloomy Rain Street home. Elenora is soon to discover that his secrets are even darker than his décor—and this lark will be a more dangerous adventure than she'd been led to believe. And Arthur, Earl of St. Merryn, will find that the meek and mild companion he'd envisioned has become both a partner in his quest to catch a killer—and an outspoken belle of the ball who stirs a bothersome passion in his practical heart... Moonlight Masquerade (London Encounters Book #1)
UPDATED FOR 2020 WITH A NEW PREFACE BY NATE SILVER "One of the more momentous books of the decade."
—The New York Times Book Review Nate Silver built an innovative system for predicting baseball performance, predicted the 2008 election within a hair's breadth, and became a national sensation as a blogger—all by the time he was thirty. He solidified his standing as the nation's foremost political forecaster with his near perfect prediction of the 2012 election. Silver is the founder and editor in chief of the website FiveThirtyEight. Drawing on his own groundbreaking work,

Silver examines the world of prediction, investigating how we can distinguish a true signal from a universe of noisy data. Most predictions fail, often at great cost to society, because most of us have a poor understanding of probability and uncertainty. Both experts and laypeople mistake more confident predictions for more accurate ones. But overconfidence is often the reason for failure. If our appreciation of uncertainty improves, our predictions can get better too. This is the “ prediction paradox ” : The more humility we have about our ability to make predictions, the more successful we can be in planning for the future. In keeping with his own

aim to seek truth from data, Silver visits the most successful forecasters in a range of areas, from hurricanes to baseball to global pandemics, from the poker table to the stock market, from Capitol Hill to the NBA. He explains and evaluates how these forecasters think and what bonds they share. What lies behind their success? Are they good—or just lucky? What patterns have they unraveled? And are their forecasts really right? He explores unanticipated commonalities and exposes unexpected juxtapositions. And sometimes, it is not so much how good a prediction is in an absolute sense that matters but how good it is relative to the competition. In other cases,

prediction is still a very rudimentary—and dangerous—science. Silver observes that the most accurate forecasters tend to have a superior command of probability, and they tend to be both humble and hardworking. They distinguish the predictable from the unpredictable, and they notice a thousand little details that lead them closer to the truth. Because of their appreciation of probability, they can distinguish the signal from the noise. With everything from the health of the global economy to our ability to fight terrorism dependent on the quality of our predictions, Nate Silver ’ s insights are an essential read.

The Virgin Who Bewitched Lord Lymington Vintage

A new edition of a celebrated contemporary work on race and racism Praised by a wide variety of people from Ta-Nehisi Coates to Zadie Smith, *Racecraft* “ought to be positioned,” as Bookforum put it, “at the center of any discussion of race in American life.” Most people assume racism grows from a perception of human difference: the fact of race gives rise to the practice of racism. Sociologist Karen E. Fields and historian Barbara J. Fields argue otherwise: the practice of racism produces the illusion of race, through what

they call “racecraft.” And this phenomenon is intimately entwined with other forms of inequality in American life. So pervasive are the devices of racecraft in American history, economic doctrine, politics, and everyday thinking that the presence of racecraft itself goes unnoticed. That the promised post-racial age has not dawned, the authors argue, reflects the failure of Americans to develop a legitimate language for thinking about and discussing inequality. That failure should worry everyone who cares about democratic institutions.

But when Commissioner Royden Napier proposes—that in exchange for her freedom—she pretend to be his wife so he can unravel a brutal mystery, she agrees. What neither counts on is their sizzling, undeniable

attraction. Sexy and action-packed, Liz Carlyle's *A Bride by Moonlight* is a beautiful love story set in Victorian high society with compelling characters and elegant, emotional prose that will appeal to readers of historical romance.

Cultural critic Fredric

Jameson, renowned for his incisive studies of the passage of modernism to postmodernism, returns to the movement that dramatically broke with all tradition in search of progress for the first time since his acclaimed *A Singular Modernity*. The *Modernist Papers* is a tour de force of analysis and criticism, in which Jameson brings his dynamic and acute thought to bear on the modernist literature of the nineteenth and twentieth centuries. Jameson discusses modernist poetics, including intensive

discussions of the work of Baudelaire, Rimbaud, Mallarmé, Wallace Stevens, Joyce, Proust, and Thomas Mann. He explores the peculiarities of the American literary field, taking in William Carlos Williams and the American epic, and examines the language theories of Gertrude Stein. Refusing to see modernism as simply a Western phenomenon he also pays close attention to its Japanese expression; while the complexities of a late modernist representation of

twentieth-century politics are articulated in a concluding section on Peter Weiss's novel *The Aesthetics of Resistance*. Challenging our previous understanding of the literature of this period, this monumental work will come to be regarded as the classic study of modernism.

Illustrated by revealing interviews with women and men in the tourist resorts in the Sinai, Egypt, this book is ostensibly about western women who sleep with 'native' men while on holiday. Broadening the scope of issues involved, it examines the link between

these holiday romances and a much wider romanticism of place and people - of the landscapes of paradise, deserts and the lure of the Bedouin sheikh - that are used to sell these destinations. It argues that the romantic stereotyping and deliberate positioning of 'Third World' resorts as places that somehow exist outside of the modernities the women come from is inextricably bound up in the relationships. Similarly, for the local man the tourist resort is perceived as a place
