The Mindhunters, Book Six It's not whether you win or lose, it's whether you make it out alive. Abby Rhodes learned early on that her gift could do more harm than good, so she stifled her psychic abilities for years. But in an unguarded moment, she touches an object connected to the murders of eleven girls and receives a message—one that could help capture a killer. When a twelfth victim goes missing, she must choose whether to trust her gift and risk everything, or stay silent and possibly jeopardize a young girl's life. Tech genius and ex-SEAL Andrew "Einstein" MacKenzie doubts the sexy yoga instructor with the soft smile can help find a killer who has eluded authorities for decades, but he'll do anything to catch a break in this case—until he learns Abby's methods have no basis in science. He prefers verified data and reliable statistics that fit neatly into his crime-solving algorithms. This woman, both his polar opposite and his

Once upon a time, iron kept the fae from wandering the sunlit realm. But over the millennia, iron gave way to steel, and now the fae are unbound. Welcome to the Court of the Steel-Born Fae... Alpha wolf shifter Merrilee Delemont inherited her small, lake-side territory high in the Oregon mountains from her grandmother along with the warning that she must be strong, always, even if she stands alone. Though she won't let herself long for someone to share her complicated life, at least she has someone to share her bed: Beck Villanova, Alpha of the valley pack. Beck has never actually seen Merrilee's bed; she refuses to let him get that close. Though her caresses and her bites drive him wild, mostly she drives him to distraction with her wariness. As a youth, he was sent away to learn to control his beast, and now he wants only to share the peace of his little town with someone to love. Despite their red-hot attraction, their struggle for dominance means any chance of something more goes up in smoke. Until fae invaders threaten the peace of their packs, forcing Merrilee and Beck to finally decide which is more important: vying for power or a passionate partnership that might change them forever. \*\*\* For readers who like: Paranormal fantasy romance with fae/fey/fairy tales happily ever afters in two-hour romance short reads with magic spells, charms, and enchanted dreams, plus Alpha wolf shifters in a former military hero and strong, creative heroine set in rural Oregon with frenemies to lovers/fated mates plus action adventure against the wild hunt! This book was originally published in 1998. For most of the nineteenth and the early part of the twentieth century, the brass band was a major feature of musical life in Britain. This book surveys the hundred years from 1836 in which bands flourished, examining their origins in the village bands of the nineteenth century, the culture of banding competitions that developed and the manner in which this fostered the growth and success of bands. Roy Newsome charts the impact of social and economic change on amateur bands during this period. The influence of classical music, in particular opera, on early band music is also examined. The latter part of the book looks in detail at the original music written for brass bands by composers such as Holst, Elgar and Bliss, as well as pieces written by prominent band leaders.

This collection of interconnected essays relates the Undead in literature, art and other media to questions concerning gender, race, genre, technology, consumption and social change. A coherent narrative follows Enlightenment studies of the vampire's origins in folklore and folk panics, the sources of vampire fiction, through Romantic incarnations in Byron and Polidori to Le Fanu's Carmilla. Further essays discuss the Undead in the context of Dracula, fin-de-siècle decadence, Nazi Germany and early cinematic treatments. The rise of the sympathetic vampire is charted from Coppola's film, Bram Stoker's Dracula, to Buffy the Vampire Slayer and Twilight. More recent manifestations in novels, TV, Goth subculture, young adult fiction and cinema are dealt with in discussions of True Blood, The Vampire Diaries and much more. Featuring distinguished contributors, including a prominent novelist, and aimed at interdisciplinary scholars or postgraduate students, it will also appeal to aficionados of creative writing and Undead enthusiasts.

I've been different all my life: always something to hide. But that was only magic. Now ... I've never had a secret this big before. Werewolves know a thing or two about secrets. I thought I had it bad, visiting my sister in England and going to a

spellcasters' conference behind her back. Turns out werewolves have been hiding here the whole time. And now they're being murdered. How was I supposed to say no when I was the one human--one outsider, one witch--they asked for help in finding the killer? A simple scry and I'd be back to my vacation. But the pack had other ideas. Between Zar's talk of moonlit beach strolls, Isaac's charm, Jason's kindness, Andrew's fast tongue, and even that bad boy thing Kage and Jed have going on, catching a killer could be the least of my problems. Did I mention they're gorgeous? They're gorgeous. Didn't know that was a werewolf thing. The wolves say they're here to protect me. Funny that I never needed it until they got me involved in hunting down a deranged serial killer. So now this is my vacation. A single witch, six sexy werewolves, and a murderer on the loose. What could possibly go wrong? This is Book 1 in The Witch and the Wolf Pack series.

of writings by one of the seminal performance artists of the last century. It provides an autobiographical and historical record of Montano's artistic practice over the last thirty years, collecting together stories, fairytales, letters, interviews, manifestos and other previously unpublished writings. At the same time, the book acts as a 'how-to' manual for aspiring performance artists, offering practical guidance for students and a range of exercises that Montano has used in her teachings and workshops. Finally, Letters from Linda M. Montano represents a performance in itself, in which the artist considers the process of writing, creating and bringing the work to fruition as another form of 'endurance performance' similar to that of her durational works 14 Years of Living Art and Blood Family Art.
