In this shocking expos é , two government fraud experts reveal how private contractors have put the lives of countless American soldiers on the line while damaging our strategic interests and our image abroad. From the shameful war profiteering of companies like Halliburton/ KBR to the sinister influence that corporate lobbyists have on American foreign policy, Dina Rasor and Robert H. Bauman paint a disturbing picture. Here they give the inside story on troops forced to subsist on little food and contaminated water, on officers afraid to lodge complaints because of Halliburton's political clout, on millions of dollars in contractors' bogus claims that are funded by American taxpayers. Drawing on exclusive sources within government and the military, the authors show how money and power have conspired to undermine our fighting forces and threaten the security of our country.
