How can educators ensure that young people who attain a postsecondary credential are adequately prepared for the future?
Matthew T. Hora and his colleagues explain that the answer is not simply that students need more specialized technical training to meet narrowly defined employment

opportunities.
Beyond the Skills Gap challenges this conception of the “ skills gap, ” highlighting instead the value of broader twenty-first-century skills in postsecondary education. They advocate for a system in which employers share responsibility along with the education sector to serve the collective needs of the economy, society, and students.
Drawing on interviews with educators in two- and four-year institutions and employers in the manufacturing and biotechnology sectors, the authors demonstrate the

critical importance of habits of mind such as problem solving, teamwork, and communication.
They go on to show how faculty and program administrators can create active learning experiences that develop students ’ skills across a range of domains. The book includes in-depth descriptions of eight educators whose classrooms exemplify the effort to blend technical learning with the cultivation of twenty-first-century habits of mind. The study, set in Wisconsin, takes place against the backdrop of heated political debates over the role of public higher education.

This thoughtful and nuanced account, enriched by keen observations of postsecondary instructional practice, promises to contribute new insights to the rich literature on workforce development and to provide valuable guidance for postsecondary faculty and administrators. The fifth edition of Professional Issues in Speech-Language Pathology and Audiology is a singularly comprehensive resource for students in speech-language

pathology and audiology as they prepare for their professional careers. It also serves as a timely source of information for both practitioners and faculty, serving as an updated “state of the professions” desk reference. The book is divided into four major sections: overview of the professions; employment issues; setting-specific issues; and working productively. The information presented in each section provides the reader with a better understanding and a new perspective on how professional issues have been affected by both internal and external

influences in recent years including technological advances, demographic shifts, globalization, and economic factors. Chapter authors are recognized subject matter experts, providing a blend of both foundational and cutting-edge information in areas such as evidence-based practice, ethics, finding a job, interprofessional practice, service delivery in healthcare and education, technology, cultural competence, supervision, and leadership. Students reading this book will appreciate how the professions have evolved over time while acquiring a

sense of where they are right now as they prepare to enter the professional world. Each of the topics covered in the book will continue to play important roles in the future of audiology and speech-language pathology, providing early career professionals with the requisite knowledge to achieve success in any setting. Flourishing in
Emerging Adulthood
highlights the third
decade of life as a time
in which individuals
have diverse
opportunities for
positive development.
There is mounting
evidence that this time
period, at least for a
significant majority, is
a unique
developmental period
in which positive
development is
fostered. Dr. Lene
Arnett Jensen
highlights the
importance of this
work in an engaging
foreword, and
chapters are written by
leading scholars in
diverse disciplines
who address various
aspects of flourishing.

They discuss multiple aspects of positive development including how young people flourish in key areas of emerging adulthood (e.g., identity, love, work, worldviews), the various unique opportunities afforded to young people to flourish, how flourishing might look different around the world, and how flourishing can occur in the face of challenge. Most chapters are accompanied by first-person essays written by a range of emerging adults who exemplify the aspect of flourishing denoted in that chapter and make note of how choices and experiences have helped them transition to adulthood. Taken together, this innovative collection provides rich evidence and examples of how

young people are flourishing as a group and as individuals in a variety of settings and circumstances. This unique resource will be useful to students, faculty, professionals, clinicians, and university personnel who work with young adults or who study development during emerging adulthood. **Interdisciplinary Behavior and Social Sciences Rowman & Littlefield Communication Instruction in the Generation Z Classroom** outlines communication and pedagogical strategies that aid teachers across disciplines and levels in engaging with Generation Z students. **A Competency-Based**
