Shipwreck More to Give
An epistolary novel set on a fictional island off the South Carolina coastline, 'Ella Minnow Pea' brings readers to the hometown of Nevin Nollop, inventor of the pangram 'The

Quick Brown Fox Jumps Over the Lazy Dog'. Deified for his achievement in life, Nevin has been honored in death with a monument featuring his famous phrase. One day, however, the letter 'Z' falls from the monument, and some of the islanders interpret the missing tile as a message from beyond the grave. The letter 'Z' is banned from use. On an island where the residents pride themselves on their love of language, this is seen as a tragedy. They are still reeling from the shock when another tile falls. And then another... In his charming debut, first published in 2001, Mark Dunn took readers on a journey through the eyes of Ella Minnow Pea, a

young woman forced to create another clever turn of phrase in order to save the islanders' beloved language.

Searching for Stars on an Island in Maine Montlake Romance

For over a quarter century, biologist Mark J. Rauzon worked in the field of island restoration, traveling throughout the American Insular Pacific to eradicate invasive plants and animals introduced by humans. The region spans from Hawai'i to Samoa to Guam, and their neighbors—small, obscure tropical islands that are hundreds, if not thousands, of nautical miles from each other. These little-known US possessions and territories include various islands and atolls: Jarvis, Howland, Baker, the Northern Marianas, Wake, Palmyra, Johnston, and Rose Atoll, among others.

They anchor a vast National Marine Monument program created in 2009, and expanded in 2014, to protect the largest area in the world from exploitation. In *Isles of Amnesia*, Rauzon chronicles the ecological and human history of these islands, enlivened with his first-hand experiences of eradication efforts to restore atoll ecosystems and maximize native biodiversity. Each chapter focuses on an individual island or island group, revealing how each location has its own particular story, secret past, or ecological lesson to be shared. Taken as a whole, the region has played a unique role in American history, with the remoteness of the islands having served the needs of whalers and guano miners in the 1800s and, in later years, that of military secret projects, missile launching,

chemical weapon incinerations, and air bases. Rauzon further explores the creation of the National Marine Monuments and what their protection means to a changing ocean, and presents original research about the US military's Pacific Project and germ warfare testing. Illustrated with over seventy historical photographs and original drawings, this much-needed work tells the fascinating story of America's forgotten Pacific islands.

All American Christmas Little, Brown Books for Young Readers

As a physicist, Alan Lightman has always held a scientific view of the world. But one summer evening, while looking at the stars from a small boat at sea, Lightman was overcome by the overwhelming sensation that he was merging with something larger than himself—an eternal unity,

something absolute and immaterial. The result is an inspired, lyrical meditation from the acclaimed author of Einstein's Dreams that explores these seemingly contradictory impulses. Lightman draws on sources ranging from Saint Augustine's conception of absolute truth to Einstein's theory of relativity, and gives us a profound inquiry into the human desire for truth and meaning, and a journey along the different paths of religion and science that become part of that quest. This small but provocative book explores the tension between our yearning for certainty and permanence versus the modern scientific view that all things in the physical world are uncertain and impermanent.

Nobel Prize in Economics, an essential and paradigm-altering framework for understanding economic development--for both rich and poor--in the twenty-first century. Freedom, Sen argues, is both the end and most efficient means of sustaining economic life and the key to securing the general welfare of the world's entire population. Releasing the idea of individual freedom from association with any particular historical, intellectual, political, or religious tradition, Sen clearly demonstrates its current applicability and possibilities. In the new global economy, where, despite unprecedented increases in overall opulence, the contemporary world denies elementary freedoms to vast numbers--perhaps even the majority of people--he

concludes, it is still possible to practically and optimistically retain a sense of social accountability. Development as Freedom is essential reading.

The instant #1 New York Times bestseller | A

Washington Post Notable Book | One of NPR's Best Books of 2021 The definitive behind-the-scenes story of Trump's final year in office, by Phil Rucker and Carol Leonnig, the Pulitzer-Prize winning reporters and authors of *A Very Stable Genius*. "Chilling." – Anderson Cooper "Jaw-dropping." – John Berman "Shocking." – John Heilemann "Explosive." – Hallie Jackson "Blockbuster new reporting." – Nicolle Wallace "Bracing new revelations." – Brian Williams "Bombshell reporting." – David Muir The true story of what took place in Donald Trump's White House during a disastrous 2020 has never before been told in full. What was really going on around the president, as the government failed to contain the coronavirus and over half a million Americans

perished? Who was influencing Trump after he refused to concede an election he had clearly lost and spread lies about election fraud? To answer these questions, Phil Rucker and Carol Leonnig reveal a dysfunctional and bumbling presidency's inner workings in unprecedented, stunning detail. Focused on Trump and the key players around him—the doctors, generals, senior advisers, and Trump family members—Rucker and Leonnig provide a forensic account of the most devastating year in a presidency like no other. Their sources were in the room as time and time again Trump put his personal gain ahead of the good of the country. These witnesses to history tell the story of him longing to deploy the military to the streets of American cities to crush the

protest movement in the wake of the killing of George Floyd, all to bolster his image of strength ahead of the election. These sources saw firsthand his refusal to take the threat of the coronavirus seriously—even to the point of allowing himself and those around him to be infected. This is a story of a nation sabotaged—economically, medically, and politically—by its own leader, culminating with a groundbreaking, minute-by-minute account of exactly what went on in the Capitol building on January 6, as Trump’s supporters so easily breached the most sacred halls of American democracy, and how the president reacted. With unparalleled access, Rucker and Leonnig explain and expose exactly who enabled—and who foiled—Trump as he sought desperately to cling to

power. A classic and heart-racing work of investigative reporting, this book is destined to be read and studied by citizens and historians alike for decades to come.

BESTSELLER • In these hilarious essays, the Saturday Night Live head writer and Weekend Update co-anchor learns how to take a beating. “I always wanted to punch his face before I read this book. Now I just want to kick him in the balls.”—Larry David
NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *Cosmopolitan* • *Vulture* • *Parade* If there’s one trait that makes someone well suited to comedy, it’s being able to take a punch—metaphorically and, occasionally, physically.

From growing up in a family of firefighters on Staten Island to commuting three hours a day to high school and “seeing the sights” (like watching a Russian woman throw a stroller off the back of a ferry), to attending Harvard while Facebook was created, Jost shares how he has navigated the world like a slightly smarter Forrest Gump. You’ll also discover things about Jost that will surprise and confuse you, like how Jimmy Buffett saved his life, how Czech teenagers attacked him with potato salad, how an insect laid eggs inside his legs, and how he competed in a twenty-five-man match at WrestleMania (and almost won). You’ll go behind the scenes at SNL and Weekend Update (where he’s written some of the most memorable sketches and jokes of the past fifteen years). And you’ll experience the life of a touring stand-up comedian—from performing in rural college cafeterias at noon to opening for Dave Chappelle at Radio City Music Hall. For every accomplishment (hosting the Emmys), there is a setback (hosting the Emmys). And for every absurd moment (watching paramedics give CPR to a raccoon), there is an honest, emotional one (recounting his mother’s experience on the scene of the Twin Towers’ collapse on 9/11). Told with a healthy dose of self-deprecation, *A Very Punchable Face* reveals the brilliant mind behind some of the dumbest sketches on television, and lays bare the heart and humor of a hardworking guy—with a face you can’t help but want to punch. *The Wild Robot Penguin*

Love is on the menu when two chefs heat up the kitchen-and each other-in this newest addition to the Anchor Island series. Chef Lauren Riley has one philosophy-never depend on anyone. But despite her cold demeanor, the locals refuse to take the hint, and she soon learns the meaning of a found family. Nick Stamatis did his time in fancy kitchens but his laid-back life as head cook of Dempsey's Bar & Grill, the most popular eatery on Anchor island, suits him just fine. Despite his playboy reputation, he's a family man at heart. But if family history repeats, he isn't likely to live long enough to have one of his own. When Nick sticks his nose into Lauren's business, she tells him exactly where to go, but it isn't long before the realization dawns-she needs his help. As he teaches her the ropes of running her own kitchen, sparks ignite, and soon they're stirring up more than either expected. Can two people who have sworn off love really make it work? Or will Lauren's past, and Nick's unknown future, keep this cautious couple from finding their happily ever after?
