James VI and I was arguably the most successful ruler of the Stewart Dynasty in Scotland, and the first king of a united Great Britain. His ableness as a monarch, it has been argued, stemmed largely from his Scottish upbringing. This book is the first in-depth scholarly study of those formative years. It tries to understand exactly when in James' 'long apprenticeship' he seized political power and retraces the incremental steps he took along the way. It also poses new answers to key questions about this process. What relationship did he have with his mother Mary Queen of Scots? Why did he favour his kinsman Esmé Stuart, ultimately Duke of Lennox, to such an extent that it endangered his own throne? And was there a discernible pattern of intent to the alliances he made with the various factions at court between 1578 and 1585? This book also analyses James' early reign as an important case study of the impact of the Reformation on the monarchy of early modern Europe, and examines the cultural activity at James' early court.

INSTANT NEW YORK TIMES BESTSELLER From the author of the New York Times bestseller Homecoming—"An ambitious, compelling historical mystery with a fabulous cast of characters...Kate Morton at her very best." —Kristin Hannah "An elaborate tapestry...Morton doesn't disappoint." —The Washington Post "Classic English country-house Goth at its finest." —New York Post In the depths of a 19th-century winter, a little girl is abandoned on the streets of Victorian London. She grows up to become in turn a thief, an artist's muse, and a lover. In the summer of 1862, shortly after her eighteenth birthday, she travels with a group of artists to a beautiful house on a bend of the Upper Thames. Tensions simmer and one hot

afternoon a gunshot rings out. A woman is killed, another disappears, and the truth of what happened slips through the cracks of time. It is not until over a century later, when another young woman is drawn to Birchwood Manor, that its secrets are finally revealed. Told by multiple voices across time, this is an intricately layered, richly atmospheric novel about art and passion, forgiveness and loss, that shows us that sometimes the way forward is through the past.

Drawing from military geography’s spatial roots, its embrace of dynamic systems, and integration of human and biophysical environments, this book helps in understanding the value of analyzing patterns, processes and systems, and cross-scale and multi-disciplinary ways of acting in a complex world, while making the case for a resurgence of strategic and military geography in Australia. Here, leading experts demonstrate that geography retains its relevance in clarifying the scale and dynamics of defense activities in assessments of the international, regional, national, and site impacts of changes in physical, cyber and human geographies. The cases presented show Australia contributing to a growing strategic and military geography.

This 2005 book proposes a model for understanding religious debates in the Churches of England and Scotland between 1603 and 1625. Setting aside 'narrow' analyses of conflict over predestination, its theme is ecclesiology - the nature of the Church, its rites and governance, and its relationship to the early Stuart political world. Drawing on a substantial number of polemical works, from sermons to books of several hundred pages, it argues that rival interpretations of scripture, pagan, and civil history and the sources central to the Christian historical tradition lay at the heart of disputes between proponents of contrasting ecclesiological visions. Some saw the Church as a blend of spiritual and political elements - a state Church - while others insisted that the life of the spirit should be free from civil authority.

Jim moves to ancient Minerva Hall and encounters the ghosts of six children. They urge him to find the seventh child and leave him cryptic clues that point to a dark, ancient prophecy that only Jim can stop from being fulfilled. Jim turns to Einstein, a brilliant autistic boy who lives at the Hall. If anyone can help Jim, Einstein can. But the boy, who speaks in riddles, proves to be as mysterious as the dead children. Time is running out; if Jim doesn't figure out the clues, innocent people will die. Christine Morton-Shaw has linked ancient rites with modern mystery to create a chilling, suspenseful tale that will keep readers guessing to the very end.
