The Gun Digest Book of Firearms Assembly/Disassembly Part IV - Centerfire Rifles Gun Digest
A handbook of survival and warfare

for the citizens of Woodstock Nation A classic of counterculture literature and one of the most influential--and controversial--documents of the twentieth century, Steal This Book is as valuable today as the day it was published. It has been in print continuously for more than four decades, and it has educated and inspired countless thousands of young activists. Conceived as an instruction manual for radical social change, Steal This Book is divided into three sections--Survive! Fight! and Liberate! Ever wonder how to start a guerilla radio station? Or maybe you want to brush up on

your shoplifting techniques. Perhaps you're just looking for the best free entertainment in New York City. (The Frick Collection--"Great when you're stoned.") Packed with information, advice, and Abbie's unique outlaw wisdom ("Avoid all needle drugs--the only dope worth shooting is Richard Nixon."), *Steal This Book* is a timeless reminder that, no matter what the struggle, freedom is always worth fighting for. "All Power to the Imagination was his credo. Abbie was the best."--Studs Terkel

Your one-stop guide to tactical shotguns: Selection. Modifications. Accessories.

Tactical Shotgun is the essential guide to selecting and using a shotgun for defense. Whether your concern is self-defense, home defense or law enforcement, author Scott Wagner's advice will help you make informed decisions. Here he offers an experienced point of view on many makes and models

of tactical shotguns, along with information on ammunition and the many accessories available. Find out: What is a "tactical" shotgun? Pump action, semi-auto or double? What's the best choice for home defense? Which features are valued by law enforcement? Wagner also reviews some fun specialty ammo (learn which exotic load promised quite a show, but ultimately fizzled), and performs some very revealing backyard ballistics testing.

Firearms: An

Illustrated History Legare Street Press Shotgun: A Comprehensive Guide is Steve Markwith's second firearms book in the Survival Guns series. This book covers the details of buying, owning, and shooting a shotgun. Steve takes the reader from understanding the many differences between various models, old and new, to detailing chokes, barrels, and shot patterns. He covers essential topics such as cleaning, safety, and training. The information contained within is detailed, covering far more than just the firearm itself, leaving the reader confident in his/her plan to learn the about the gun in a reasoned, logical way. Steve's

decades of experience and no-nonsense writing style makes this book a joy to read. Complemented with many photographs, this is a must-have on the bookshelf of any firearms enthusiast.

Mechanix Illustrated Skyhorse Publishing, Inc. During his life, Gene Nunnery was recognized as a master turkey hunter and an artisan who crafted unique, almost irresistible turkey calls. In *The Old Pro Turkey Hunter*, the vaunted sportsman shares over fifty years of personal experience in Mississippi and surrounding states, along with the decades-old

wisdom of the hunters who taught him. Throughout the book, his stories make clear that turkey hunting is more than just killing the bird--it is about matching wits with a wild and savvy adversary. As Nunnery explains, "To me that's what it's all about: finding a wise old gobbler who will test your skill as a turkey hunter." Through his stories, Nunnery reveals that the true reward for successful turkey hunting lies in winning the contest, not necessarily exterminating the foe. Real sportsmen know that every now and then the

turkey should and will elude the hunter. As Nunnery looks back on his extensive career, he analyzes vast differences in practice, old and new. The shift, he decides, came during his last twenty years on the hunt, and that difference has only increased in the decades since this book was originally published. Michael O. Giles, Bass Pro staff team member, master turkey hunter, and award-winning outdoors writer and author of *Passion of the Wild*, writes a new foreword that brings the practice of turkey hunting into the present day.

Filled with a tested mixture of common sense and specific examples of how master turkey hunters honor their harvest and heritage, *The Old Pro Turkey Hunter* is the perfect companion for the novice or the adept.

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so,

could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct

that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
