While movies and television have made many people familiar with the name Glock, not many know the history of Glock's pistols. With The Book of Glock, Robert A. Sadowski showcases all of Glock's American handgun models, from the first model, the Glock 17, which premiered in 1982, to the all-new G43, and educates firearms enthusiasts on the quirks

of each. The Book of Glock references all Glock pistols available in the United States with in-depth information on all models—history, serial numbers, rare Glock variants, comparative models, cutaway sales models, and more.

Sadowski worked closely with Stanley Ruselowski, the president of the Glock Collectors Association, to bring readers information and photos of rarely seen Glocks. Each chapter is dedicated to a different model. Sadowski provides a timeline of the company's evolution and a close look at how Glock redefined the combat pistol. Other chapters touch on rare models, commemorative editions, and Glock tools and accessories. Whether a

firearms collector or a new enthusiast, anyone can enjoy Sadowski's analysis of Glocks throughout history.

Shooter's Bible, 108th Edition

Simon and Schuster

The Modern Survival Manual is based on first hand experience of the 2001 Economic Collapse in Argentina. In it you will find a variety of subjects that the author considers essential if a person wants to be prepared for tougher times: -How to prepare your family, yourself, your home and your vehicle -How to prepare your finances so that you don't suffer what millions in my country went through -How to prepare your supplies for food shortages and power failures -How to correctly fight with a chair, gun, knife, pen or choke with your bare hands if required -Most important, how to reach a good awareness level so that you can avoid having to do all that These are just a few examples of what you will find

in this book. It's about Attitude, and being a more capable person and get the politically correct wimp out of your system completely.

Shooter's Bible, 105th Edition

Simon and Schuster

Now available in one special set, the bestselling must-have reference book and one-stop guide to buying new and collectible firearms. Previously published as two separate reference guides, Skyhorse Publishing is packaging its bestselling Shooter 's Bible and Gun Trader 's Guide together for the first time. Now, gun enthusiasts can see the specs and photos of brand-new and currently produced firearms as well as information and market prices for collectible firearms with one purchase. Published annually for more than eighty years, the Shooter 's Bible is the most comprehensive and sought-after reference guide for new firearms and their specifications, as well as for

thousands of guns that have been in production and are currently on the market. The 108th edition also contains new and existing product sections on ammunition, optics, and accessories, plus updated handgun and rifle ballistic tables and extensive charts of currently available bullets and projectiles for handloading. For more than half a century, the Gun Trader 's Guide has been the standard reference for collectors, curators, dealers, shooters, and gun enthusiasts. Updated annually, this thirty-eighth edition boasts dozens of new entries since last year 's edition and includes a complete index and a guide on how to properly and effectively use this book in order to find the market value for your collectible modern firearm. No matter what kind of modern firearm you are interested in, the Shooter 's Bible and Gun Trader 's Guide Box Set is the perfect all-in-one source of information.

Prepper's Home Defense Gun Digest Books

When a soldier must face multiple opponents at close quarters, few weapons can match the effectiveness of the shotgun. From World War I to the War on Terror, the shotgun has been a devastating weapon in the hands of US troops. For urban combat, prisoner control and shipboard operations, it remains as deadly today as it was a century ago. This book examines various types, from the early combat shotguns through to the riot gun and trench gun versions used in World War I. So effective was the trench shotgun, the Germans complained it violated the “ Rules of War ” as an inhumane weapon, and threatened to execute troops captured carrying one. More recently during the War on Terror, shotguns have been used to clear cave complexes in Afghanistan and buildings in Iraq, but especially to blow doors open during entries and searches. Featuring specially commissioned full-color artwork, this is the story of the origins, development and the use of the combat shotgun in

US service, from the trenches of World War I, to the Korean and Vietnamese Wars and lately the cave complexes of Afghanistan. Book of Glock Dbi Books The All-New, Completely Updated 2010 Edition!
