Adjust the balance  
by moving the  
paperclips to make  
the motor spin

freely. You may  
need to  
experiment a bit  
with the placement  
and positioning of  
the paper clips to  
hold the coil in  
place. Squeeze  
them in close if the  
ends of the wire  
keep popping out  
or bend them out  
further if the clips  
are coming into  
contact with the  
loop of the coil  
itself. [15]
