The Motorcraft division of Ford Motor Co. manufactured both the 2100 and 2150 two-barrel carburetors. The 2100 carburetor was used during the 1960s, whereas the 2150 model was most notably used during the 1970s. Both models are relatively easy to locate today, as

the company fitted both devices onto base-model six-

Ford Motorcraft 2100 2150 2 barrel carburetor Parts Page
A stock Motorcraft 2150 is more tolerant of off-camber and steep angles than most other carburetors, modified or not. And a couple of simple modifications to the 2150 will improve its off-road capability substantially. Fortunately, the Motorcraft 2150 carburetor is very easy to work on. Maintenance and basic tuning adjustments are simple.

2100 Vs. 2150 Motorcraft | It Still Runs

The Motorcraft 2150 is a Ford (also used by AMC) 2-barrel carburetor manufactured from 1973 through 1983, based heavily on its predecessor, the Autolite 2100 carburetor.. The 2150 improved on the 2100s design through the introduction of a variable air bleed

system, which keeps
the air to fuel
mixture better
balanced
throughout the
carburetor's full
range of operation.
