mistakes. There are

emergencies. Most
people don't realize
that if your car goes
into the water, the
water pressure outside
the car door makes it
virtually impossible to

open. Either keep a screwdriver, hammer or punch near the driver's seat so you can quickly break the window and swim out. If you don't have that, kick the windshield out. The only way I know that is that I watched a safety video and learned it. You might think it's boring but I took the time to educate myself about all the types of hypothetical dangerous situations I could be in and how to handle them. If it happens, you know exactly what to do. Knowing what to do can keep you calm and brave. Learn safety information with everyone in your household including children. Create an emergency plan for the entire family so that everyone knows what to do.
