

Mount Kenya University Past Examination Papers

Recognizing the pretentiousness ways to acquire this books **Mount Kenya University Past Examination Papers** is additionally useful. You have remained in right site to start getting this info. acquire the Mount Kenya University Past Examination Papers belong to that we present here and check out the link.

You could purchase lead Mount Kenya University Past Examination Papers or acquire it as soon as feasible. You could quickly download this Mount Kenya University Past Examination Papers after getting deal. So, behind you require the book swiftly, you can straight acquire it. Its appropriately unconditionally easy and consequently fats, isnt it? You have to favor to in this heavens

Handbook of Transdisciplinary Research Edward Elgar Publishing

For centuries the peak of Mount Kenya has held a magical and religious significance for the Bantu and Nilohamitic peoples around its base. The Kikuyu live around the Eastern and Southern bound aries and the closely related Uembu and Umeru on the S.E. and N.E. respectively. Early in this century the Masai lived to the N.W. and North, but after continual warfare between them and their neighbours, the European administrators of that time moved them to a special reserve to the South, which accounts at the present day for the retention in the Masai language of many words that refer to Mount Kenya. Kikuyu folklore tells how, when the earth was formed, a man named Mogai made a great mountain, Kere-Nyaga. The fine white powder (snow) covering the peak, which they called ira, was said to be the bed of Ngai (God), and during male and female circumcision ceremonies a white powder was placed on the wound, and the initiates were told that this material had been brought from the summit of the mountain. In fact all important tribal ceremonies were, and in many cases still are conducted facing the mountain. Such occasions include marriage and sacrifice when, in time of hardship, Ngai's aid is called upon (CAGNOLO 1933, KENYATTA 1938, CRIRA 1959).

Kenya in the Social Sciences Springer Science & Business Media

Most of the papers reproduced here have either been presented at a national or international conference, and some have been published elsewhere. I have obtained permission to republish because I think it is important to have them all together. The idea came to me when I was asked, during an interview, why I wrote on such different topics as part of my scholarship. The question was based on the different publications in which the person asking had found them. I had to explain that they are all on language and culture, two areas that are closely interrelated. It occurred to me that having all the papers published in one volume would help show how they relate to one another, and thereby provide a more meaningful dialogue on the general topic. I therefore hope that although each paper stands alone, use of cross-referencing will provide a cumulative effect that is impossible when the papers are read as separate publications. The last chapter is not a paper in the traditional sense, in that it is just a list of words. However, it adds to the readers understanding of the Kikuyu language. The semantic domains are a people groups way of understanding, categorizing and labeling the world around them. I hope it will be especially important as a source for future scholars who will want to analyze the culture and thought processes of their ancestors.

The delivery of quality education to students relies heavily on the

actions of an institution's administrative staff. Effective leadership strategies allow for the continued progress of modern educational initiatives. It is crucial to investigate how effective administrators lead their organizations in challenging and difficult times and promote the accomplishments of their organization. Research Anthology on Preparing School Administrators to Lead Quality Education Programs is a vital reference source that offers theoretical and pedagogical research concerning the management of educational systems on both the national and international scale. It also explores academic administration as well as administrative effectiveness in achieving organizational goals. Highlighting a range of topics such as strategic planning, human resources, and school culture, this multi-volume book is ideally designed for educators, administrators, principals, superintendents, board members, researchers, academicians, policymakers, and students.

Religion, Law and Security in Africa Deaf Education Beyond the Western World Context, Challenges, and Prospects

Presenting a topical analysis of the challenges and achievements of enterprise, Enterprise and Economic Development in Africa examines contributions to economic development on the continent, as well as exploring implications for policy dimensions.

Security is a key topic of our time. But how do we understand it? Do law and religion take different views of it? In this fifth volume in the Law and Religion in Africa series, radicalisation, terrorism, blasphemy, hate speech, religious freedom and just war theories rub shoulders with issues of witchcraft, female genital mutilation circumcision, child marriage, displaced communities and additional issues besides. This unique collection of topics is both challenging and inspiring, providing illumination in troubled times, and forming a sound foundation for future scholarship.

Their impact on Kenya's security standards, educational system and agricultural sector Springer Science & Business Media

Online learning has been touted as one way of reducing the cost of higher education while simultaneously addressing the increasing demand for educational opportunity and providing access to hitherto "left out" populations. Many universities are defying tradition by offering completely online degrees for global participants. As such, research is needed to improve the design of online and virtual learning environments to ensure that they are inclusive and culturally adaptive for the global education marketplace. The Handbook of Research on Cross-Cultural Online Learning in Higher Education shares paradigms, perspectives, insights, challenges, and best practices for the instructional design and delivery of cross-cultural adult web-based learning experiences and examines adult learner characteristics and competencies critical for the design of these applications. The content within this publication covers trending topics including virtual

learning, culturally adaptive environments, and online education and is intended for instructional designers, faculty, administrators, students, and researchers.

Handbook of Research on Learner-Centered Pedagogy in Teacher Education and Professional Development IGI Global
Education in the 21st century is shifting focus from accessing and sharing information to designing active and collaborative learning environments which foster student engagement and critical thinking skills. Active learning features a hands-on, activity-based teaching approach during which students synthesize information and take joy in new discovery. The Handbook of Research on Learner-Centered Pedagogy in Teacher Education and Professional Development presents a comprehensive look into the methodologies and strategies necessary to establish classroom climates in which students feel free to question their preconceptions and express opinions. Featuring chapters from international researchers, this book is ideal for administrators, teachers, policy makers, and students of education.

Focusing on global value chains and their importance to trade, this edited collection explores the strategic role of logistics and supply chain infrastructure in the development of Africa. Skilled authors present critical analysis of the current state of logistics in Africa, and suggest improvements to policy and practice which address the issue of poor trading relationships. This book will engage entrepreneurs, academics and policy-makers interested in international business, raising awareness of the need for better trade infrastructure in Africa in order to ensure the continent's economic development.

Kenya Past and Present AFRICAN SUN MeDIA

Facing Mount Kenya, first published in 1938, is a monograph on the life and customs of the Gikuyu people of central Kenya prior to their contact with Europeans. It is unique in anthropological literature for it gives an account of the social institutions and religious rites of an African people, permeated by the emotions that give to customs and observances their meaning. It is characterised by both insight and a tinge of romanticism. The author, proud of his African blood and ways of thought, takes the reader through a thorough and clear picture of Gikuyu life and customs, painting an almost utopian picture of their social norms and the sophisticated codes by which all aspects of the society were governed. This book is one of a kind, capturing and documenting traditions fast disappearing. It is therefore a must-read for all who want to learn about African culture.

Series C, Concepts and methods GRIN Verlag

Enterprise resource planning (ERP) is a class of integrated software that uses software technologies to implement real-time management of business processes in an organization. ERPs normally cut across organizations, making them large and complex. Software researchers have for many years established that complexity affects software quality negatively and must therefore be controlled with novel metrics and models of evaluation that can determine when the software is at acceptable levels of quality and when not. *Metrics and Models for Evaluating the Quality and Effectiveness of ERP Software* is a critical scholarly publication that examines ERP development, performance, and challenges in business settings to help improve

decision making in organizations that have embraced ERPs, improve the efficiency and effectiveness of their activities, and improve their return on investments (ROI). Highlighting a wide range of topics such as data mining, higher education, and security, this book is essential for professionals, software developers, researchers, academicians, and security professionals.

Laikipia-Mount Kenya Papers Oxford University Press

As today's teachers prepare to instruct a new generation of students, the question is no longer whether technology should be integrated into the classroom, but only "how?" Forced to combat shorter attention spans and an excess of stimuli, teachers sometimes see technology as a threat rather than a potential enhancement to traditional teaching methods. The Handbook of Research on Educational Technology Integration and Active Learning explores the need for new professional development opportunities for teachers and educators as they utilize emerging technologies to enhance the learning experience. Highlighting the advancements of ubiquitous computing, authentic learning, and student-centered instruction, this book is an essential reference source for educators, academics, students, researchers, and librarians.

Concepts, Methodologies, Tools, and Applications IGI Global

Transdisciplinary Research (TR) is an emerging field in the knowledge society for relating science and policy in addressing issues such as new technologies, migration, and public health. This handbook provides a structured overview of the manifold experiences gained in these fields. In the first part, 21 projects from all over the world present their research approaches. In the second part, cross-cutting challenges of TR are discussed in reference to the same projects.

Series B, Baseline data Emerald Group Publishing

As teaching strategies continue to change and evolve, and technology use in classrooms continues to increase, it is imperative that their impact on student learning is monitored and assessed. New practices are being developed to enhance students' participation, especially in their own assessment, be it through peer-review, reflective assessment, the introduction of new technologies, or other novel solutions. Educators must remain up-to-date on the latest methods of evaluation and performance measurement techniques to ensure that their students excel.

Learning and Performance Assessment: Concepts,

Methodologies, Tools, and Applications is a vital reference source that examines emerging perspectives on the theoretical and practical aspects of learning and performance-based assessment techniques and applications within educational settings.

Highlighting a range of topics such as learning outcomes, assessment design, and peer assessment, this multi-volume book is ideally designed for educators, administrative officials, principals, deans, instructional designers, school boards, academicians, researchers, and education students seeking coverage on an educator's role in evaluation design and analyses of evaluation methods and outcomes.

Ethical Innovation in Business and the Economy Springer

What is education for an unknowable future? In *Educating for Durable Solutions*, Christine Monaghan explores how refugees and policymakers have answered this question over time by reconstructing the contemporary history of education in Kenya's Dadaab and Kakuma refugee camps. Through oral histories and archival research, Monaghan shows how, since the founding of both camps in 1991, refugees and policymakers have conceptualized, developed, implemented and changed refugee education programs. She also shows why and how, despite these changes, real challenges persist in refugee education in Dadaab, Kakuma, and other camps throughout the world; these include high numbers of out-of-school children and youth, high student to teacher ratios, unpredictable funding, and persistent

questions regarding what refugee education is for. The author shifts focus from debates over the impacts of specific policies and programs and explores instead how and why different policies and programs were implemented whether they led to meaningful changes in the long-standing challenges of refugee education. She finds that when and where real changes occurred, individuals or small groups of refugees and policymakers acted with tremendous agency and as tireless advocates.

Research Paper (postgraduate) from the year 2019 in the subject History - Africa, grade: 5.0, Mount Kenya University, course: M.A history, language: English, abstract: This work analyses the role of colonial chiefs in the development of Kenya. Therefore, their contributions to the different sectors of the republic have been evaluated. The work starts with an overview of colonial chiefs and ways on how they were appointed are described. Then an in-depth review of their different contributions, such as their contribution to the security of the country and their help to transform the education system in the country, is given. From the report it becomes clear that, despite their collaboration with the British colonizers, the traditional chiefs played an integral role as they mobilized communities to bring development in different sectors. Reports clearly show how colonial chiefs mobilized communities to develop health facilities, contract roads and engage in environmental conservation. Colonial chiefs in Kenya form a strong part of the country`s history, as they are the ones who facilitated the operation of the colonial regime in the country. Though they have been criticized as collaborators by most of the existing historical studies, they are also credited in contributing towards the sustainable development of Kenya. Their governance played a significant role, particularly in the maintenance of high security standards, promotion of education and growth of the agricultural sector.
