Strings and Geometry American Mathematical Soc.
The strange odysseys of two young women animate this "hypnotic and glowing" American gothic novel that blurs the line between the real and the supernatural (Gregory Maguire, *The New York Times Book Review*). A *New York Times* Editors' Choice A *Paris Review* Staff Pick Ruth and Nat are seventeen. They are orphans living at The Love of Christ! Foster Home in upstate New York. And they may be able to talk to the dead. Enter Mr. Bell, a con man with mystical interests who knows an opportunity when he sees one. Together they embark on an unexpected journey that connects meteor sites, utopian communities, lost mothers, and a scar that maps its way across Ruth's face. Decades later, Ruth visits her niece, Cora. But while Ruth used to speak to the dead, she now doesn't speak at all. Even so, she leads Cora on a mysterious mission that involves crossing the entire state of New York on foot. Where is she taking them? And who—or what—is hidden in the woods at the end of the road? "[A] gripping novel...The narratives, which twist together into a shocking dénouement, are marked by ghost stories."—*The New Yorker*

The Newbery Award-winning author of *Up a Road Slowly* presents the unforgettable story of Jethro Creighton—a brave boy who comes of age during the turbulent years of the Civil War. In 1861, America is on the cusp of war, and young Jethro Creighton is just nine-years-old. His brother, Tom, and his cousin, Eb, are both of fighting age. As Jethro's family is pulled into the conflict between the North and the South, loyalties are divided, dreams are threatened, and their bonds are put to the test in this heart-wrenching, coming of age story. "Drawing from family records and from stories told by her grandfather, the author has, in an uncommonly fine narrative, created living characters and vividly

reconstructed a crucial period of history." —Booklist

From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' *Guardian* 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' *Observer* 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' *The Times*
