Best of Five Clinical Scenarios

for the MRCP: Volume 1, Part 1

PasTest Ltd

Medicine for MRCP provides a comprehensive review of the material that you need to pass the MRCP Parts 1 and 2 written papers. The twenty-seven chapters mapped out to the RCP syllabus, cover all areas from molecular medicine and genetics, through to medical law and ethics. Written by specialist contributors and educational experts, the content is carefully crafted to build your understanding for both papers. Each chapter begins with the basic science required for Part 1, before covering clinical medicine for Part 1, Part 2 and the PACES examinations. To ensure effective revision, material is presented in short sections with bullet lists, tables, and boxes. Over 150 drawings and photos illustrate key principles and clinical topics making them easier to retain. References to evidence-based protocols and directions to further reading allow for deeper understanding. Candidates can review their progress via the 180 end-of chapter self-assessment questions. Drawing on the authors' expertise, Medicine for MRCP is the ideal companion for the MRCP as well as a useful reference guide for practicing medical doctors.

Mrcp Part 2 CRC Press

For the MRCP Part 2 exam, candidates need to be able to interpret radiological images of commonly encountered conditions. They also increasingly need to be able to answer other questions about the condition shown in the image, for example treatment and prognosis. This book has been designed to meet that need. It is divided into five sections: chest, abdomen, nervous system, cardiovascular system and musculoskeletal system. Each condition described is illustrated by one or two high quality radiological images and then provides a concise but holistic

view of the condition, with all the important aspects of disease that the candidate will be expected to know. This information is supplemented by a short series of example exam questions.

Self Assessment: Teaching Questions for Mrcpuk and Mrcpi Part 2 Written Exams

Wiley-Blackwell

Featuring a wealth of practice questions, MRCP PART 2: 450 BOFs allows trainees to test themselves on everything they need to know to pass the MRCP Part 2 written exam.

Mrcp Churchill Livingstone

The Complete MRCP is a series of 3 books that cover the whole of the written section of the Part 1 and Part 2 exams for the College of Physicians qualifications.

All three books were originally written by registrars and senior registrars, all of whom were closely involved in Membership-level teaching. As a result they are the books most highly regarded by those preparing for the exams and they are essential for all those taking the qualification. The MRCP itself is a very difficult professional qualification. It is jointly organised by the three UK Royal Colleges of Physicians - Edinburgh, Glasgow and London. The format of the exam is

constantly changing to reflect the patterns of medicine and roughly 4000 candidates apply to take the MRCP every year. This book covers the 3rd element of the Part 2 MRCP exam - colour photograph questions. It contains 150 colour illustrations covering a wide range of clinical conditions with related questions which are in the form encountered in the exam itself. The photographs include radiographs, blood films and pathological examples. The questions give a certain amount of relevant history to help the candidate make the most appropriate diagnosis. The answers are very detailed and should aid the candidate in revision.

Mrcp 1 Pocket Book 2 Jaypee Brothers, Medical Publishers Pvt. Limited

A book of approximately 100 questions based on the interpretation of data from all the commonly used tests in clinical medicine. The questions will be ordered by system and within that by test; for example, the respiratory system questions are based on lung function and flow-volume curves. The book's unique feature is that it will be fully comprehensive, including examples (questions) on all the conditions that can be

diagnosed using each particular investigation. Churchill Livingstone Following the super-success of their MRCP Part 2 volume, the authors adapt their special teaching skills to the needs of MRCP Part 1 and similar exams in internal medicine. The book consists of 360 'Best of 5' multiple choice questions (1,800 clinical decision) reflecting the latest exam format. It covers all areas of clinical medicine needed by exam candidates and includes psychiatry and applied basic science. The answers contain full didactic explanations to ensure the reader understands each condition or topic, and features lists, tables and tutorials to guide candidates in their revision and exam technique. The book has proved invaluable to young doctors studying for higher exams in internal medicine and to medical tutors preparing post graduate examinations.

MRCP Part 2 Self-Assessment

CRC Press

This book is the essential revision guide for neurology in the Membership of the Royal College of Physicians (MRCP). Neurology has been rated as the most difficult subject in MRCP examinations and there has been no concise

and easy-to-use revision guide to help candidates through the exams until now. Neurology for MRCP is written by two experienced neurologists who have taught both the written (Part 1 and Part 2) and clinical (PACES) sections of the exam. This pioneering new book will also be useful for medical students sitting for their final examinations and for doctors who are preparing for the PLAB examination.

Self-assessment for the MRCP Part 2 Written Paper CRC Press

This book provides a bank of multiple-choice questions for candidates preparing for Part 2 of the Membership examination of the Royal Colleges of Physicians, the MRCP. The questions are arranged by subject area to enable structured revision and allow candidates to focus on particular areas where they feel less confident. The book has been written with a close focus on recent examinations, with the coverage of topics weighted to reflect the frequency with which they have appeared. The book is structured more as a manual than as a mock exam, and includes explanations for both correct and incorrect answers, focusing comprehensively on the fundamental principles of medical practice. As well as candidates for the MRCP, this book will also be of interest to medical students and students of related health sciences.
