Get Through MRCP Part 2: 450 Best of Fives, 2nd edition Lulu Press, Inc
The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Neurology for Mrcp Churchill Livingstone

This new book contains 350 'best of five' multiple-choice questions for the new MRCP (UK) Part 1 exam. The questions cover a wide range of topics in both clinical medicine and applied basic sciences. The answers are fully descriptive and will help the candidate appreciate why the correct answer is the best of the five given, and include useful background information. The questions are in random order by topic, with the first 50 being less difficult - and thereafter the questions get more challenging. To aid revision, there is an appendix at the end of the book that lists the questions under topic headings. A new book of 350 new-style best of five questions in the style of the MRCP (UK) Part 1 exam Questions presented randomly by topic - as they would be encountered in the real exam Has fully descriptive answers Covers both clinical and basic science topics Includes an appendix where questions are grouped according to topic

Data Interpretation Questions and Case Histories CRC Press

A revision book intended primarily for candidates sitting their MRCP Part 1 examination and which covers all the essential basic sciences. It focuses on the recurring themes which come up in the questions. The book also includes a chapter on clinical pharmacology (which alone accounts for up to 30% of the questions), looking at aspects of drug-induced disease and drug interactions. Finally there is a chapter on statistics and epidemiology which is rarely covered in other texts, but is often included in the exam. Despite the changes to the teaching of the undergraduate in medicine and the integration of the basic sciences with clinical education, the junior doctor, faced with postgraduate examinations, is always going to be poorly prepared for those increasingly important subjects. This book presents the essential information in the form of lists, tables, diagrams and flow charts.

MRCP 2 Practice Questions & Answers Churchill Livingstone

Following the super-success of their MRCP Part 2 volume, the authors adapt their special teaching skills to the needs of MRCP Part 1 and similar exams in internal medicine. The book consists of 360 Best of 5' multiple choice questions (1,800 clinical decision) reflecting the latest exam format. It covers all areas of clinical medicine needed by ex

Basic Medical Sciences for MRCP PasTest Ltd

This book is the essential revision guide for neurology in the Membership of the Royal College of Physicians (MRCP). Neurology has been rated as the most difficult subject in MRCP examinations and there has been no concise and easy-to-use revision guide to help candidates through the exams until now. Neurology for MRCP is written by two experienced neurologists who have taught both the written (Part 1 and Part 2) and clinical (PACES) sections of the exam.

This pioneering new book will also be useful for medical students sitting for their final examinations and for doctors who are preparing for the PLAB examination.

Data Interpretation for the MRCP PasTest Ltd

Covers MRCP Part 2 syllabus and offers candidates essential practise at popular questions for the Part 2 examination. This title also covers cardiology, dermatology, endocrinology & metabolism, gastroenterology, haematology, infectious diseases, neurology, ophthalmology, psychiatry, renal medicine, respiratory medicine, and rheumatology.

Rapid Review of Clinical Medicine for MRCP Part 2, Second Edition PasTest Ltd

For the MRCP Part 2 exam, candidates need to be able to interpret radiological images of commonly encountered conditions. They also increasingly need to be able to answer other questions about the condition shown in the image, for example treatment and prognosis. This book has been designed to meet that need. It is divided into five sections: chest, abdomen, nervous system, cardiovascular system and musculoskeletal system. Each condition described is illustrated by one or two high quality radiological images and then provides a concise but holistic view of the condition, with all the important aspects of disease that the candidate will be expected to know. This information is supplemented by a short series of example exam questions.

MRCP Part 2: 450 BOFs Oxford University Press

Here's an essential revision tool for the MRCP exam. The second book in this three-book series, written by renowned experts, offers fully detailed answers and helps to prepare students in data interpretation of laboratory or other results (such as ECGs) by implementing practical case histories.
