Delete user data from Project Server - Project Server ...

Archiving and hiding completed projects reduces the "clutter" in these views, and helps keep users from making changes to projects that are no longer active. There is one "standard" method for archiving projects effectively using Microsoft Project Server 2010. If that method doesn't meet your needs, there are a few alternative methods ...

Ms Project Server 2010 User

First I want to show you the difference between Users and Resources.

When you create Resource in MS PROJECT PROFESSIONAL 2010, PROJECT SERVER 2010 creates User for that Resource. Resource is someone you need to do actual work on your Project (Projects). User can be someone who will use PROJECT SERVER 2010, but who will not work on tasks on projects. For example, you can have Administrator who will administrate your PROJECT SERVER 2010, but who will do no work on any Task on any Project.

2010. Microsoft Project 2010 adds ribbons to its user interface. Ribbons are available in other Office products, such as Microsoft Project and PWA. Other features include Project Portfolio Server, the inclusion of a "Timeline" view, which graphically represents key tasks and milestones. Another view that helps with resource management is the Team Planner, which provides a graphical view of assignments of tasks to resources.

Project Server provides project management, work management, and portfolio management capabilities for the enterprise. With it, organizations can effectively initiate, select, plan, and deliver projects while tracking time and budget, while also providing extensive reporting capabilities.
