Hi, I'm new to your
forum. I bought an
eMachine T6524 with an
MSI MS-7184
(RS482M2 series) mobo.
I plan to put in a dual
monitor card and need to
upgrade the power
supply (Would you
beleive, eMachine puts a
300 Watt unit on a board
that recommends a
minimum of 350!). I
notice that the original
power supply has a 20
pin ATX plug.
